

# Cabinetmaker's Glue 2002 GF

---

(62K01.10+)

**Application:** An excellent high-strength assembly adhesive that is non-staining and has extra-high gap-filling ability. An ideal choice as a general-purpose and woodworking glue.

**Directions:** Apply at room temperature. Open assembly time is 15 to 20 minutes, clamping time is 30 to 90 minutes. Allow joints to condition for 24 hours. Shear strength is in excess of the shear strength of most hard woods. Cleans up with water.

**Contents:** 45% solids, polyvinyl acetate emulsion adhesive. Fine solid particles (1 micron) resist settling over time. Non-flammable adhesive with no significant hazards.

**Safety:** This product is not considered hazardous. If ingested, do not induce vomiting. Contact physician.

**Shelf Life:** One year in original container. Store in a cool, dry place and protect from freezing.
