

These types of bowls are often used as prep bowls when cooking. When a recipe calls for many ingredients, cooks prefer to prepare each ingredient ahead of time so that all are ready to use when the cooking commences. This method is especially handy if each of the individual ingredients requires special preparation such as grating, chopping, shredding or measuring of small amounts.

There are many other uses for these mini bowls. See below for a list of ways you can use these bowls in your kitchen, craft room or workshop.

## **WASH MINI BOWLS BEFORE USING.**

### **Mini Bowl Features:**

- Highly polished finish minimizes food sticking.
- Wide stable base.
- Holds just over 1/2 cup.
- Rimmed edge provides grip for slippery hands.
- Stackable design uses less space than a large tumbler.

### **Mini Bowl Uses:**

- Ingredient preparation
- Bar condiments (cherries, lime slices, olives)
- Dipping sauces (for example, Asian cuisine)
- Jams or marmalades
- Relishes or horseradish
- One scoop sorbet or ice cream dish
- Bowls placed on a lazy susan for fondue party dips
- Finger bowls
- Handy scoop for bulk foods (pet foods, rice, pasta, cereal)
- Small pet dishes (rabbits or gerbils)
- Serving children's treats or snacks
- Crafts table (beading, scrapbooking)
- Sewing projects
- Tool bench

## Mini Bowl Care Tips:

Contrary to popular belief, stainless steel is not stainless; it is just very stain resistant. Over time, and particularly in contact with harsh chemicals (such as bleach), it will eventually stain. To prevent this, stainless bowls should be washed with dish soap and dried. Hard water will leave a surface film if left on the steel to dry.

To keep the finish bright and shiny, **do not** use abrasive scouring pads on these bowls. They will score the polished surface.

In normal use, foods will not cause a problem. Some salty foods (such as pickle juice) can cause surface staining if left in bowls for extended periods. This staining can be removed with baking soda, silver polish, or stainless-steel cleaner made for pots and pans.

 **Warning:** *Not for use in dishwasher, microwaves, in oven, or on stovetop.*
