The **COOLPIX L20** is a great camera for beginners just getting started in digital photography. Easy to use and fully featured the COOLPIX L20 will delight it's users with great pictures, fun features and a huge 3.0-inch display at a surprisingly affordable price.

## EXPEED™

Nikon's smarter approach to digital imaging technology. From image capture to processing, Nikon's comprehensive EXPEED digital imaging concept encompasses the entire picture-taking operation. EXPEED is much more than a processing engine; it is a revolution in digital photography.

### Three functions designed to minimize image blur for better results

**Motion Detection**

- **Motion Detection** automatically detects a moving subject and adjusts shutter speed and the ISO setting to compensate for camera shake and subject movement.
- **High ISO 1600** capability helps give you sharper results when shooting in low light or capturing fast-moving subjects.
- Nikon's original **Best Shot Selector** automatically takes up to 10 shots while the shutter is pressed and saves the sharpest image.

**High Sensitivity**

### High-resolution LCD monitor

A huge, bright 3.0-inch LCD monitor makes it easy to compose shots and play them back anywhere, ensuring clear viewing even in direct sunlight.

### Easy Auto Mode

Easy auto mode simplifies photography by taking control of settings, so you can just turn on the camera and shoot freely.

### Nikon's Scene Auto Selector

**Scene Auto Selector**

Automatically recognizes the scene and selects from one of six scene modes for best results. The COOLPIX L20 will choose, Portrait, Night Portrait, Close-up (macro), Landscape, Night Landscape or Backlight mode.
