Key Features

- **14.2 Megapixels** for stunning prints as large as 20 x 30 inches
- **10x Optical Zoom-NIKKOR ED Glass Lens** 30mm wide-angle to 300mm⁴ telephoto for incredibly sharp, clear images throughout the zoom range
- **Huge, Bright 3.0-inch** high resolution VGA (921k-dot) Clear Color Display
- **Quick Response** fast start up and high speed performance
- **HD movies (720p)** with HDMI connectivity
- **4-way VR Image Stabilization System**
- **Creative Slider** for simple brightness, vividness and color hue adjustment
- **Advanced Flash Control** delivers natural flash images
- **Scene Auto Selector** automatically selects one of six scenes modes
- **Sport Continuous Mode** takes 20 pictures at up to 11 frames per second³
- **Macro shooting** from as close as 0.4 in. (1cm)
- **Smart Portrait System includes:**
 - **Smile Timer and Blink Proof** makes sure you'll always catch the decisive moment when your subject smiles and Blink Proof function shoots two pictures and automatically saves the one in which the subject's eyes remain open
 - **Blink Warning**, when activated alerts you that the subject may have blinked and allows you to retake the photo
 - **In-Camera Red-Eye Fix™** automatically fixes, while shooting, most instances of red-eye in the camera. You may never see red-eye again
 - **Face-Priority AF** Nikon's face-finding technology that automatically focuses on up to 12 faces
 - **Skin Softening** smoothes skin tone at three different levels for optimal portraits

Digital Camera Specifications

Dimensions	Approx. 4.1 x 2.3 x 1.1 in.
(WxHxD):	103 x 57 x 27.3mm excluding projections
Weight:	Approx. 6.5oz. (183g) with battery and SD/SDHC memory card

The slim and attractive way to bring your subjects closer

Nikon design goes beyond slim contours and sophisticated operation by engineering a precision 10x wide-angle Zoom-NIKKOR ED Glass Lens into the thinnest camera in its class¹. With wide through super-telephoto coverage, the creative freedom afforded by this new lens forms a perfect blend with the other creative features of the COOLPIX S8000.

EXPEED™

Nikon's smarter approach to digital imaging technology. From image capture to processing, Nikon's comprehensive EXPEED digital imaging concept encompasses the entire picture-taking operation. EXPEED is much more than a processing engine; it is a revolution in digital photography.

3-in. Ultra High-Resolution VGA (921k-dot) Clear Color Display

The high-quality 3-in. Clear Color Display features an ultra wide-viewing angle, anti-reflection coating, and screen brightness adjustment. The vibrant 3.0-inch 921k-dot VGA display offers amazing clarity and detail for superior image reproduction. In addition, the monitor's structure greatly reduces reflection and improves visibility outdoors for a more vivid, clearer image preview and playback.

High-Definition movie recording with stereo sound

A dedicated Movie button makes it easy to record up to 1.5 hours² of beautiful HD movie (720p) at 30 frames per second with stereo sound and low noise, even in poor lighting.

4-way VR Image Stabilization System

VR Image Stabilization

Motion Detection

High Sensitivity

- **Optical VR Image Stabilization** by lens shift minimizes the effect of camera shake
- **Motion Detection** automatically detects moving subjects and adjusts shutter speed and ISO setting to compensate for camera shake and subject movement
- **High ISO up to 3200** at full resolution capability helps give you better results when shooting in low light or capturing fast-moving subjects.
- **Nikon's original Best Shot Selector (BSS)** automatically takes up to 10 shots while the shutter is pressed and saves the sharpest image

Creative Slider is the fun new way to express your creative side

Creative Slider places a rich variety of creative effects at your disposal when shooting in Auto Mode. Adjust brightness, saturation and color tone using the handy Rotary Multi Selector, all while watching a real-time preview on the ultra high-resolution 3-in. LCD.

¹ Among compact cameras equipped with an optical zoom capable of zooming in at 10x or more as of January 15, 2010 (according to research conducted by Nikon Corporation).

² Recording stops automatically after 29 minutes. This figure is based on Nikon Corporation testing standards and stated for recording at 77° F (25°C) with a fully charged EN-EL12 battery. Actual results may vary greatly depending on factors that include differences in ambient temperature, and the amount of zoom and autofocus operations used.
