

NPS Membership Qualifying Equipment

Owning Nikon equipment and registering it with Nikon is a qualification for NPS membership. NPS is that extra support for those occasions that arise to keep you shooting with certainty, ease and a feeling of security. Membership in NPS requires that you own eligible equipment totaling at least 1000 points, which must include at least 2 Nikon DSLR cameras and 2 NIKKOR lenses. NPS Membership is subject to the Nikon Professional Services Member Terms and Conditions. Existing members renewing their accounts will be granted limited membership if they cannot meet the minimum with the restriction of no repair discount and no equipment loans.* Point values on equipment will decrease over time during the service period. Please check this page or refer to the updated list sent to you by Nikon from time to time. For current point values, see below. Ownership of current products and keeping your equipment list up to date allows you to enjoy the perks of member benefits and for us to continue to supply NPS service at no charge to you.

*Members with occupation descriptions: Government, Law Enforcement, Military, or Retired Photographer who do not meet the above minimum equipment requirement will have access to the limited benefit of 1 equipment loan per calendar year and repair service and discount on qualifying equipment.
