# PC-E MICRO NIKKOR 85mm f/2.8D PERSPECTIVE CONTROL LENS

PC-E MICRO NIKKOR 85mm f/2.8D  
PERSPECTIVE CONTROL LENS

FEATURES

- Medium-telephoto, Perspective Control (PC) lens featuring tilt, shift and rotation capability, ideal for a variety of shooting requirements, including, portrait, nature and product photography
- Wide shifting range, plus or minus 11.5mm, with a tilting range of plus or minus 8.5-degrees.
- Revolving capability of plus or minus 90-degrees, in 30-degree increments, for versatile tilt/shift control
- Nikon's Nano Crystal Coat virtually eliminates internal reflections across a wide range of wavelengths, for even greater image clarity
- High-performance Nikon Super Integrated Coating (SIC) offers superior color performance and substantially reduced ghosting and flare
- Automatic aperture control with electromagnetic diaphragm (Nikon D3, D700 and D300 only)
- Rounded 9-blade diaphragm for more natural appearance of out-of-focus image elements
