- 1. EverBank, N.A. is an FDIC insured national bank. The standard FDIC insurance limit of \$250,000 applies per depositor, per insured depository institution for each account ownership category. FDIC insurance covers against loss due to the failure of the institution, but not due to fluctuations in currency values. Due to the nature and volatility of the foreign exchange market, the values of currencies are subject to wide fluctuations against the U.S. dollar. Foreign currency denominated instruments will entail significant risk exposure to adverse movements of the foreign currency relative to the U.S. dollar. The amount of deposit insurance available for products denominated in foreign currency will be determined and paid in the United States dollar equivalent of the foreign currency, as the value of such currency is determined by the FDIC under its regulations, on the institution's date of default. You can lose money, including principal, due to currency fluctuations. Please only deposit money that you can afford to risk, and as part of a broadly diversified strategy.
- 2. WorldCurrency Access Deposit Accounts may be subject to a monthly maintenance fee. Any monthly maintenance fee will be disclosed on the rate sheet or on a separate disclosure that we will provide to you at least 30 days prior to imposing or changing any monthly maintenance fee, and will be charged in the Foreign Currency in which the applicable Access Account is denominated.
- 3. Accounts opened with foreign currency must meet the U.S. dollar equivalent minimum opening balances.
- 4. The start date will be the first purchase date available following the approval, opening and sufficient funding of the account. EverBank reserves the right to terminate the Automatic Purchase Plan or your involvement in the Automatic Purchase Plan at any time, for any reason, including but not limited to overdrafts of your companion EverBank cash management account.

- 7. MarketSafe® CDs, if held to the Maturity Date, will have a guaranteed return of the deposited principal ("Principal Protection"). Principal Protection only applies to CDs held to maturity. In the event of EverBank, N.A.'s failure, all of your deposits with EverBank, N.A. (including this MarketSafe CD) will be aggregated and insured by the FDIC up to the \$250,000 maximum. Except in the event of death or adjudication of incompetence of the holder of the MarketSafe CD, you may not withdraw any part of the CD prior to maturity.
