

# Stonemark Wind Energy Center

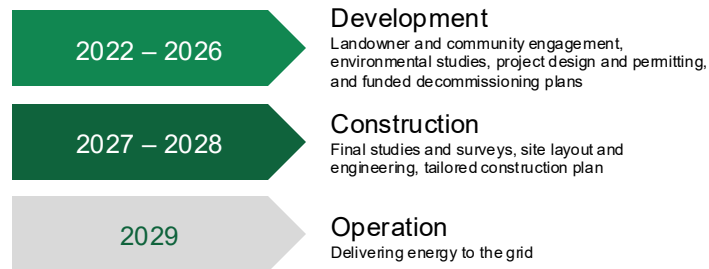

The **Stonemark Wind Energy Center** is a proposed **150-megawatt (MW)** wind power generation facility in **Marathon County, Wisconsin**. Land-based wind energy is critical to meeting growing energy demand and strengthening local economies, while creating jobs, American energy independence, and delivering cost savings for consumers.

## Commitment to Safe, Responsible Development

We believe in safe, responsible, community-focused project development. With every project, we are committed to:

- Incorporating the latest information to minimize risk to the natural environment
- Supporting and collaborating with local first responders to ensure emergency preparedness
- Building long-term relationships with communities, landowners and local businesses
- Providing extensive training and workforce development for employees

## Anticipated Project Timeline

## Project Highlights\*

- \$72 million+** in local economic investment via tax revenue, land costs and lease payments over project lifetime
- Support for local organizations and events including Wisconsin Valley Fair, Edgar and Athens High Schools, and Patriot K9s
- \$750,000** in annual local tax revenue via Wisconsin Shared Utility Aid fund, distributed between host townships and Marathon County
- Up to 200** construction jobs, boosting local businesses
- Up to **6** skilled, local full-time operations and maintenance jobs
- 150 MW** of domestic, reliable, affordable energy can power more than **40,000 American homes**
- To learn more about the project, visit: **stonemarkwind.com**

Invenergy-developed Forward Wind Energy Center, located in Dodge and Fond du Lac Counties, Wisconsin.

## Energy Innovation. Trusted Execution.

Invenergy is North America's largest privately held developer, owner, and operator of innovative, reliable power infrastructure. Backed by 25 years of trusted execution and operational excellence, Invenergy's end-to-end expertise provides customers with smart, scalable energy solutions across natural gas, solar, land-based wind,

energy storage, transmission, and domestic manufacturing. Headquartered in Chicago, Invenergy and its affiliates have successfully developed over 220 projects totaling more than 36 gigawatts and reliably operate over 20 gigawatts of large-scale power infrastructure projects across four continents.
