Invenergy

Worthwhile Wind Energy Center

The **Worthwhile Wind Energy Center** is a proposed **165-megawatt** (MW) wind power generation facility in **Worth and Winnebago Counties, Iowa**. Land-based wind energy is critical to meeting growing energy demand and strengthening local economies, while creating jobs, American energy independence, and delivering cost savings for consumers.

Commitment to Safe, Responsible Development

We believe in safe, responsible, community-focused project development. With every project, we are committed to:

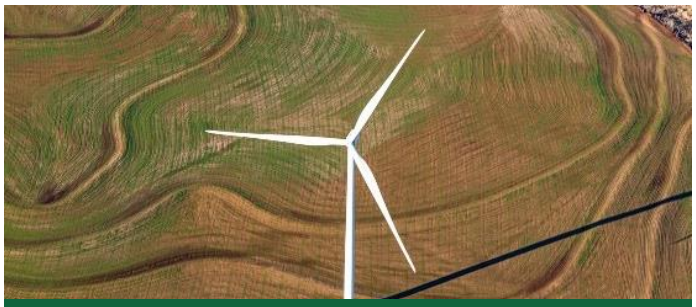
- Incorporating the latest information to minimize risk to the natural environment
- Building long-term relationships with communities, landowners and local businesses
- Supporting and collaborating with local first responders to ensure emergency preparedness
- Providing extensive training and workforce development for employees

Anticipated Project Timeline

2018 – 2025 — Development
Landowner and community engagement, environmental studies, project design and permitting, and funded decommissioning plans

2026 – 2027 — Construction
Final studies and surveys, site layout and engineering, tailored construction plan

2027 — Operation
Delivering energy to the grid



Project Highlights*

$158 million+ in local investment via tax revenue, land costs and lease payments over project lifetime

Provides additional revenue that helps preserve family farms for generations to come

Hundreds of construction jobs, boosting local businesses

Up to **10** skilled, local full-time operations and maintenance jobs

165 MW of domestic, reliable, affordable energy can power more than **56,000 American homes**
