

Badger Hollow Wind Energy Center

The Badger Hollow Wind Energy Center is a proposed up to 118 (MW) wind power generation facility in Iowa and Grant Counties, Wisconsin, targeted to begin operating in 2027. Wind technology delivers clean, reliable, and affordable power from one of the oldest known energy sources and today is helping to modernize America’s energy grid.

Invested in Your Community

Clean energy projects live at the intersection of community interest, environmental stewardship, and innovative business practices. Invenergy designs projects that provide direct benefits to their host communities through new economic growth opportunities and additional funding to local organizations and nonprofits that are vital to the community’s health and safety.

Project Timeline

Project Highlights

More than **\$64 million** invested in local tax revenue, land costs and lease payments, and wages and benefits over the life of the project

118 MW is enough electricity to power more than **30,000 American homes**

Up to **200 jobs** supported during construction

Up to **4 full-time** operations and maintenance staff

Emissions reductions equivalent to **62+ million trees planted**

Supports local education, emergency & veteran services and environmental stewardship

Commits to developing projects while minimizing impacts to sensitive ecological resources and ensuring responsible land use

Invenergy’s Forward Wind Energy Center, located in Dodge and Fond du Lac Counties, Wisconsin.

A Proven Track Record in Sustainable Energy Development

Invenergy is a leading, privately-held developer and operator of sustainable energy solutions.

A U.S.-based company, Invenergy invests \$400 million annually in the home communities where its projects are located.

Invenergy has successfully developed more than 200 projects, including wind, solar, transmission infrastructure, green hydrogen, natural gas power generation and advanced energy storage projects.

Invenergy Impact at Badger Hollow Wind

Badger Hollow Wind will invest \$590,000 annually through local tax revenue, supporting the local economy through increased funding for Fire and EMS, local infrastructure projects, and community organizations, giving back to Iowa and Grant County residents.

Above: The Badger Hollow Wind team donated \$10,000 to the Cobb, Eden, Livingston-Clifton, Linden, Montfort, and Rewey Fire and Rescue Services.

Investing in Education

Above: The Badger Hollow Wind team volunteered at the Iowa Grant High School career fair - chatting with students and handing out information about the project.

Valuing Farming Families
