Invenergy Projects in Michigan

Spanning 13 counties

Invenergy's 100th project, Southern Oak Solar Energy Center, located in Mitchell County, Georgia.

Energy Innovation. Trusted Execution.

Invenergy is North America's largest privately held developer, owner, and operator of innovative, reliable power infrastructure. Backed by 25 years of trusted execution and operational excellence, Invenergy's end-to-end expertise provides customers with smart, scalable energy solutions across natural gas, solar, land-based wind,

energy storage, transmission, and domestic manufacturing. Headquartered in Chicago, Invenergy and its affiliates have successfully developed over 220 projects totaling more than 38 gigawatts and reliably operate over 25 gigawatts of large-scale power infrastructure projects across four continents.

State Highlights

Invenergy-developed projects in Michigan: 8 in operation

Generation capacity totaling approximately **1,200 megawatts**, which is enough electricity to power over **240,000 American homes***

24 full-time operations & maintenance staff

More than **\$15.7 million** invested annually in local taxes, land costs and lease payments, and project-generated wages and benefits

Annual donations to local education, emergency & veteran services, and environmental stewardship

* Data for Invenergy-developed projects only. Excludes third-party projects.

Invenergy Services

Operating and maintaining clean energy centers with an owner's mindset

14 Invenergy operated sites totaling more than 980 megawatts where we provide management and O&M, with 11 projects owned by a third party

Invenergy

Community Spotlight: Gratiot County Wind Projects

Since 2012, Invenergy has completed development on four wind energy centers in Gratiot and Isabella Counties. These projects have brought significant economic benefits to the area, and we are proud to be a long-term community partner.

Project Highlights

- **Gratiot County Wind** (212.8 MW) – COD 2012
- **Pine River Wind** (161.3 MW) – COD 2019
- **Polaris Wind** (168 MW) – COD 2020
- **Heartland Farms Wind** (200 MW) – COD 2023

Local Economic Impact

The four Invenergy-developed wind projects have brought significant local economic investment to Gratiot County. Since 2012, the Invenergy projects have invested **\$58M** in total local tax revenue including:

\$29M to local and intermediate school districts

\$19M to County operations and millages

\$6.9M to local townships and cities

Project Spotlight: Calhoun Solar Energy Center

Invenergy's first solar project in Michigan, Calhoun Solar Energy Center (200 MW), reached commercial operations in 2023 and continues to deliver economic benefits to the county, townships, local landowners, and businesses and organizations in the area.

As of 2025, Invenergy has completed development on 4 solar projects and provides operations & maintenance services at 9 more across the state.

Local Economic Impact

Throughout the project's lifetime, the Calhoun Solar Energy Center will bring continued investment to Calhoun County, including:

Up to **\$10K** annually in charitable donations and partnerships with local organizations

\$33M in land and lease payments

\$46M in county and township tax revenue

7+ full-time local jobs

“Wind development has unquestionably brought increased economic prosperity to the county. By developing four wind energy centers in Gratiot County, Invenergy has been a great partner to help our community realize these benefits. The wind projects have helped identify Gratiot County as a forward-looking community that continuously positions itself for a successful future.”

JIM WHEELER, PRESIDENT, GREATER GRATIOT DEVELOPMENT, INC.

Invenergy in the Community

Above: As a long-term partner to Gratiot County, Invenergy actively participates in community events, including a strong relationship with the local United Way.

Above: Invenergy employees volunteering at recent United Way of Gratiot County events, including their 10th Annual PITCH-ER THIS! Youth Venture Competition and “Feed the Need” food drive.
