

# Bodark Solar Energy Center

The **Bodark Solar Energy Center** is a proposed **300-megawatt (MW)** solar power generation facility in **Muskogee County, Oklahoma**. Solar energy is critical to meeting growing energy demand and strengthening local economies, while creating jobs, American energy independence, and delivering cost savings for consumers.

## Commitment to Safe, Responsible Development

We believe in safe, responsible, community-focused project development. With every project, we are committed to:

- Incorporating the latest information to minimize risk to the natural environment
- Building long-term relationships with communities, landowners and local businesses
- Supporting and collaborating with local first responders to ensure emergency preparedness
- Providing extensive training and workforce development for employees

## Anticipated Project Timeline

|-------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| 2017– 2026  | <b>Development</b><br>Landowner and community engagement, environmental studies, project design and permitting, and decommissioning plans |
| 2027 - 2028 | <b>Construction</b><br>Final studies and surveys, site layout and engineering, tailored construction plan                                 |
| 2028/2029   | <b>Operation</b><br>Delivering energy to the grid                                                                                         |

## Project Highlights\*

**\$160 million+** in local economic investment via tax revenue, land costs and lease payments, and wages and benefits over project lifetime

Contributes annual donations to organizations such as local fire departments, veterans' services, food banks and schools

**Over 300** construction jobs, boosting local businesses

Up to **3** skilled, local full-time operations and maintenance jobs

**300 MW of domestic, reliable, affordable energy** can power more than **73,000 American homes**

Provides additional revenue that helps preserve family farms for generations to come

Invenergy's 100<sup>th</sup> project, Southern Oak Solar Energy Center, located in Mitchell County, Georgia.

## Energy Innovation. Trusted Execution.

Invenergy is North America's largest privately held developer, owner, and operator of innovative, reliable power infrastructure. Backed by 25 years of trusted execution and operational excellence, Invenergy's end-to-end expertise provides customers with smart, scalable energy solutions across natural gas, solar, land-based wind,

energy storage, transmission, and domestic manufacturing. Headquartered in Chicago, Invenergy and its affiliates have successfully developed over 220 projects totaling more than 36 gigawatts and reliably operate over 20 gigawatts of large-scale power infrastructure projects across four continents.
