

Wingstem Solar Energy Center

The Wingstem Solar Energy Center is a proposed 150 megawatt (MW) solar power generation facility in Howard Township, Michigan targeted to begin operating in 2028. Solar technology delivers clean, reliable, and affordable power from one of the oldest known energy sources and today is helping to modernize America's energy grid.

Invested in Your Community

Clean energy projects live at the intersection of community interest, environmental stewardship, and innovative business practices. Invenergy projects provide direct benefits to their host communities through new economic growth opportunities and additional funding to local organizations and nonprofits. The Wingstem Solar team has donated over \$22,000 to community organizations, including the Four Flags Area Apple Festival, the Greater Niles Chamber of Commerce, and the Howard Township Baseball League.

Project Timeline

2019 – 2026	Development
2026 – 2028	Construction
Q4 2028	Operation

Invenergy's Badger Hollow Solar Energy Center, located in Grant & Iowa Counties, Wisconsin.

A Proven Track Record in Sustainable Energy Development

Invenergy is a leading, privately-held developer and operator of sustainable energy solutions.

A U.S.-based company, Invenergy invests \$573 million annually in the home communities where its projects are located.

Invenergy has successfully developed more than 200 projects, including wind, solar, transmission infrastructure, green hydrogen, natural gas power generation and advanced energy storage projects.

Project Highlights

More than **\$60 million** invested in the local community, including over **\$21 million** invested through local tax revenue over the life of the project

150 MW is enough electricity to power more than **27,000 American homes**

Up to **130 jobs** supported during construction

Up to **6 full-time** operations and maintenance staff

Emissions reductions equivalent to **57 million trees planted**

Supports local education, emergency & veteran services and environmental stewardship

Commits to developing projects while minimizing impacts to sensitive ecological resources and ensuring responsible land use with industry-leading vegetation management team
