

# South Deuel Wind Energy Center

The South Deuel Wind Energy Center is a proposed up to 260-megawatt (MW) wind power generation facility in Deuel County, South Dakota targeted to begin operating in 2026. The project neighbors newly operational 300+ MW North Deuel Harvest Wind Energy Center. Wind energy is clean, renewable power from one of the oldest known energy sources, and today is one of the most affordable ways to modernize America's energy grid.

## Invested in Your Community

Clean energy projects live at the intersection of community interest, environmental stewardship, and innovative business practices. Invenergy designs projects that provide direct benefits to their host communities through new economic growth opportunities and additional funding to local organizations and nonprofits that are vital to the community's health and safety.

## Project Timeline

Invenergy's North Deuel Wind Energy Center, located in Deuel County, South Dakota.

## A Proven Track Record in Sustainable Energy Development

Invenergy is a leading, privately-held developer and operator of sustainable energy solutions.

A U.S.-based company, Invenergy invests \$400 million annually in the home communities where its projects are located.

Invenergy has successfully developed over 200 projects, including wind, solar, transmission infrastructure, green hydrogen, natural gas power generation and advanced energy storage projects.

## Project Highlights

More than **\$116 million** invested in local tax revenue, land costs, and lease payments over the life of the project

**260 MW** is enough electricity to power more than **103,000 American homes**

Up to **243 jobs** supported during construction

Up to **8 full-time** operations and maintenance staff

Emissions reductions equivalent to **215 million trees planted**

Supports local education, emergency & veteran services and environmental stewardship

Commits to developing projects while minimizing impacts to sensitive ecological resources and ensuring responsible land use
