

Building the energy future one community at a time.

We develop, build, and operate every project with a focus on the long-term success of the communities where we operate.

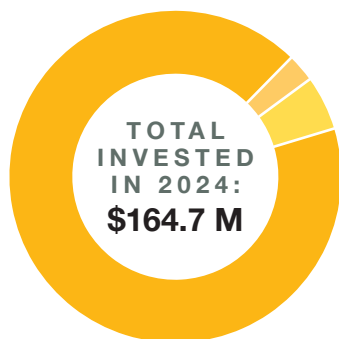

Our projects strengthen local economies with property taxes, land costs, lease payments and good-paying jobs. They also strengthen regional energy security while keeping costs low for consumers.

We also invest in local communities by supporting first responders, education, and military veterans.

Strengthening communities with long-term investment.

Community investment

LAND COSTS & LEASE PAYMENTS
\$139.2 Million
WAGES & BENEFITS
\$8.9 Million
STATE & LOCAL TAXES
\$16.6 Million

Support of local nonprofit organizations and causes

\$412,700

Our focus on solar workforce development.

Hiring locally for quality, well-paid jobs.

Building skills for the next generation's energy workforce.

Creating visible and secure career paths.

Upholding the highest standards of health and safety.

"[Invenergy] projects are a real blessing for us. I never had a 401(k). I farmed and stuck everything back to the farm. This is the 401(k) that I never had."

— DAVE JOHNSON, INVENERGY
LANDOWNER, RICEVILLE, IA
