

Loop Overview

Financial Clearance

Gain information on potential financial assistance programs available to patients.

Hospitals provide more than \$20 billion of annual uncompensated care that can be recovered through financial assistance programs. The Benefit Screening Loop, powered by Advocatia, is a key driver of Olive's Financial Clearance solution. It removes financial barriers for patients to dramatically impact uncompensated care for hospitals. The proprietary algorithms help identify resources and enroll individuals in programs to access care and resources they need.

Streamline the enrollment process, eliminate unnecessary follow-up appointments and remove friction when communicating with patients with Olive's Benefit Screening Loop.

Supercharge human workers and enable:

- Real-time intelligence that offers benefit program options like SNAP and Medicaid to patients without healthcare coverage, enhancing patient care and safety
- More informed decision making with real-time impact

Loop details at a glance.

Get instant access to accurate and up-to-date information on financial assistance resources and more — without exiting workflows.
