Introduction

Purpose

SonicWall offers a range of firewall and management solutions for businesses of all sizes. This guide provides information on how to purchase Gen 8 Midrange and SOHO Firewalls, management and services. The latest midrange firewalls, NSa 2800 and NSa 3800, and TZ80 for SOHO are in the SonicWall Customer Loyalty Program.

Audience

This guide is intended for SonicWall sales, partners, distributors, and customers.

Midrange Firewall Overview

SonicWall Gen 8 Midrange Firewalls are the perfect NGFWs for branch offices and distributed enterprises. The firewalls deliver high-security efficacy at a low TCO and efficient management of mass deployments via Network Security Manager (NSM), a centralized management solution. Gen 8 Midrange Firewalls also enable rapid adoption of safe, remote access to cloud and private apps and provide flexible licensing models to meet unique security needs. All the security services with Gen 8 firewalls come with a no-cost cyber warranty for risk mitigation.

With best-in-class threat protection throughput and RTDMITM security technology, Gen 8 Midrange Firewalls create a strong return on investment.

Managed service providers and distributed enterprises can simplify the management of complex and mass deployments and increase efficiencies with NSM features such as golden templates, auto-synchronization, and audit logs.

Businesses can select from three different service licensing options: Essential (EPSS), Advanced (APSS), and Managed Protection (MPSS). These options allow businesses to select the security services that best meet their requirements, including an option for managed firewall services when additional expertise is required. The Midrange firewalls are also available for purchase as Hardware-Only.

For organizations and businesses seeking to enhance cloud security, Gen8 firewall solutions are integrated with SonicWall Cloud Secure Edge (CSE) to support Zero Trust Access, enabling authenticated access of private resources behind the firewalls.

Key Features:

- Better TCO on Firewall Licensing Throughput
- Best-in-class Threat Protection Throughput
- Flexible licensing models for Hardware, Security and Managed Services
- Centralized Cloud management (NSM SaaS) is included with all Gen 8 Midrange Firewall services
- Comprehensive visibility of all SonicWall network security devices via SonicPlatform
- Zero-Trust Edge (ZTE) Support
- Low TCO and best-in-class threat prevention performance
- Simplified management and efficient deployment of distributed firewalls
- Flexibility in licensing options including hardware only, essential, advanced, and managed protection
- Enhanced protection with easy adoption of access verification and ZTE security
- Industry-first cyber warranty for firewalls, by Cysurance

Licensing Options

SonicWall Gen 8 midrange firewalls offer flexible licensing for hardware only, security, and managed services.

The security and managed service options are: Essential (EPSS), Advanced (APSS), and Managed Protection Service Suite (MPSS).

EPSS provides all essential security services needed to protect against known and unknown threats.

APSS offers advanced security to extend the security of your network with cloud-critical security services.

MPSS augments network operation center resources with firewall management expertise from SonicWall team. MPSS is available to SonicWall Service Provider Partners (SPPs) in North America only.

SPPs are eligible for Monthly and Annual billing options.

The following table provides detailed features for each of the service subscription licenses.

Licensing Options for SonicWall Gen 8 Midrange Firewalls

Feature	Hardware Only	Essential Protection Service Suite (EPSS)	Advanced Protection Service Suite (APSS)	Managed Protection Service Suite (MPSS) ¹
24x7 Support	Add-On ²	✓	✓	✓
- Centralized Management & Orchestration	Included with Support	✓	✓	✓
Layer 4/7 stateful firewall and Stateful HA	✓	✓	✓	✓
SD-WAN & Advanced Routing ³	✓	✓	✓	✓
Application Control	Add-On	✓	✓	✓
Intrusion Detection & Prevention	Add-On	✓	✓	✓
Content & Reputation-Based Filtering	Add-On	✓	✓	✓
Capture ATP Sandboxing	Add-On	✓	✓	✓
7-Day Basic Reporting (Summarized) ⁴		✓	N/A	N/A
Advanced Reporting ⁵	Add-On	Add-On	✓	✓
Advanced Analytics ⁵	Add-On	Add-On	✓	✓
Embedded Firewall Warranty by Cysurance		Up to USD \$100,000	Up to USD \$100,000	Up to USD \$100,000
Firewall Configuration Management				✓
After hours critical support				✓
24x7 Managed Firewall & Enhanced Support				✓

¹ MPSS is only available in North America Region for partners in SPP program

² Add-On denotes services that are available via Add-On SKUs

³ Advanced Application Routing requires Application signatures and GAV/IPS service. GAV/IPS services are only available with EPSS, APSS and MPSS

⁴ Basic Reporting (Summarized) is a feature available only for EPSS. Advanced Reporting and Analytics provide comprehensive features and functionalities that supersede Basic Reporting

⁵ Advanced Reporting and Advanced Analytics can be extended to or procured for 7, 30-90, 365-day service using NSM Add-On SKUs

Additional information for Partners: Please refer to SecureFirst Partner Portal for pricing and billing options if you are in North America. For other regions, please contact your SonicWall representative or local distributor.

How to Order

- New Purchase
 - » Gen 8 Midrange Firewall is available via the regular procurement channels.
- Upgrade from legacy NSa or other midrange firewall
 - » SecureUpgrade Plus: Customers of legacy NSa can trade in their devices for a Gen 8 Midrange Firewall as part of the Customer Loyalty Program
 - » SonicProtect Subscription: Subscribers can apply the APSS services from SonicProtect when they upgrade their legacy hardware to Gen 8 Midrange Firewall to carry forward their subscriptions from previous generations.
 - » Loyalty Program: Customers can use programs such as 3&Free for an upgrade to Gen 8 Midrange Firewall

How to Activate License

License activation is the same as the key renewal process for firewalls.

Please refer to: [How can I apply my activation keys to my SonicWall? | SonicWall](#) for details.

Pricing

Please refer to the regional price list.

SonicWall Gen 8 Midrange Firewall SKUs

The following pages highlight popular SKUs for the Service Suites. Network Security Manager (NSM) is included in the Service Suite and standalone SKUs. The comprehensive list is available on the regional price lists.

TZ80 Overview

SonicWall TZ80 is the perfect-fit subscription-based NGFW for small offices & home offices. The firewall delivers high-security efficacy at a low TCO, the flexibility to meet changing security needs, rapid time-to-value, and a strong security posture.

With best-in-class threat protection throughput, TZ80 creates a strong return on investment.

Businesses can also transition from enabling basic secure connectivity to advanced protection, matching their growth requirements. The firewall supports Zero Trust Access by Cloud Secure Edge integration, enabling authenticated access of private resources behind the firewall. TZ80 also drives quick onboarding and ease-of-use via zero-touch provisioning and simplified management.

Key Features:

- Subscription-based
- Multiple licensing models
- Better TCO on Firewall Licensing Throughput
- Best-in-class Threat Protection Throughput
- Zero-touch Provisioning and Simplified Management
- Zero-Trust Edge Support
- Cloud management (NSM SaaS) is included with all TZ80 subscriptions
- Embedded warranty by Cysurance with selected license models.

Key Benefits:

- Strong return on investment with better TCO and strong performance
- Flexibility to deploy secure connectivity, advanced protection, or managed protection
- Easy to deploy, simplified administration
- Cost-savings, subscription-based
- Enhanced security profile with access verification and
- Zero-Trust Edge support

Licensing Options

SonicWall TZ80 is a subscription-based model. Without a service bundle subscription, TZ80 will not be operational.

There are two service subscription options: Secure Connect, Advanced Protection Service Suite (APSS) and Managed Protection Service Suite¹ (MPSS). The service subscriptions are available for 1-year to 5-year terms.

The following table provides detailed features for each of the service subscription licenses.

FEATURE	SECURE CONNECT	ADVANCED PROTECTION	MANAGED PROTECTION
24x7 Solution Support	✓	✓	✓
Centralized Management & Orchestration	✓	✓	✓
Layer 4/7 Stateful Firewall	✓	✓	✓
SD-WAN & Advanced Routing	✓	✓	✓
Stateful High-Availability	✓	✓	✓
Gateway Antivirus, Intusion Detection & Prevention and Anti-Spyware		✓	✓
Content & Reputation-based Filtering		✓	✓
Capture ATP with RTDMI		✓	✓
DNS Filtering		✓	✓
Full Reporting		7-Day (Extensible to 30, 90, 365 Days)	7-Day (Extensible to 30, 90, 365 Days)
Advanced Analytics		7-Day (Extensible to 30, 90, 365 Days)	7-Day (Extensible to 30, 90, 365 Days)
24x Managed Firewall & Enhanced Support			✓
Embedded Warranty by Cysurance	N/A	\$100,000	\$200,000

Additional information for Partners: Please refer to [SecureFirst Partner Portal](#) for pricing and billing options.

How to Order

- New Purchase:
 - » TZ80 is available via the regular procurement channels.
 - » There is no hardware release SKU. Buyers must procure a bundle which includes either Secure Connect or APSS.
- Upgrade from legacy SOHO/SOHOW
 - » SecureUpgrade Plus: Customers of legacy SOHO/ SOHOW can trade in their devices for a TZ80 as part of the Customer Loyalty Program
 - » SonicProtect Subscription: Subscribers can apply the APSS services from SonicProtect when they upgrade their legacy hardware to TZ80 to carry forward their subscriptions from previous generations.
 - » Promotional Program: Customers can use promotional programs such as 3&Free with Cloud Secure Edge (CSE) for an upgrade to TZ80

How to Activate License

License activation is the same as the key renewal process for firewalls.

Please refer to: [How can I apply my activation keys to my SonicWall? | SonicWall](#) for details.

Pricing

Please refer to the published monthly regional price list.

Management Overview

SonicPlatform

SonicPlatform is a cutting edge cybersecurity platform designed to meet the evolving needs of Managed Service Providers (MSPs). It offers a comprehensive approach to cybersecurity, enabling MSPs to manage, secure, and scale their clients' networks efficiently and effectively. With SonicPlatform, MSPs can leverage a single, unified console to deploy, manage, and monitor SonicWall security solutions, including but not limited to firewalls, endpoint protection, threat detection, and secure remote access. This purpose-built platform simplifies the complexities of cybersecurity management for MSPs, offering unparalleled visibility, control, and automation across multiple client environments.

Key Features

- Multi-Tenant Management
- Zero Touch Deployment
- Active Alerting and Monitoring
- Scalable Security Services
- Improving Service to Clients

Key Benefits

- Gain instant visibility across all your end-customers' infrastructure, identify vulnerabilities, and take immediate action – all in one place
- Easily deploy and manage more products across more customers without exponentially adding to operational complexity and cost.
- Simplify management by eliminating the need to juggle multiple consoles and improve uniform security enforcement across different products.
- Improve efficiency with simplified license management in the unified console.
- Get a real-time overview of your entire infrastructure and security landscape.
- Gain real-time insights from a unified dashboard, empowering you to make informed decisions and ensure optimal security

How to Order/Activation/Pricing

When you register your firewalls, you will be able to access SonicPlatform. It is complimentary and included in SonicWall's solutions.

[SonicPlatform Datasheet](#)

Network Security Manager

Network Security Manager (NSM) delivers centralized management for SonicWall firewalls and connected devices. The NSM platform revolutionizes network security management with simplified licensing, enhanced multi-tenant compatibility, and advanced reporting capabilities. Designed for scalability and simplicity, NSM 3.0 addresses the latest network challenges with innovative, customer and partner-focused solutions.

Key Features:

- Multi-tenant Deploy and Commit
- Simplified and Flexible Licensing
- Migration Capability for Seamless Firewall Upgrades
- Enhanced Reporting and Analytics
- Support for SonicOS 7.2 Firmware

Key Benefits

- Simplifies bulk operations and improves multi-tenant management, saving valuable time and resources
- Seamlessly upgrade older generation firewalls to the latest firewalls
- Increase visibility and automation for networks of all sizes
- Cost-efficient licensing and customizable reporting periods

How to Order

- New Purchase: Purchase with Firewall Hardware as part of the Service Bundles in the SKUs above
 - » NSM is available for all current firewalls
- Upgrade from legacy GMS
 - » Please refer to GMS FAQ (hyperlink) for the most up to date information.

How to Activate License

License activation is the same as the key renewal process for firewalls.

Please refer to: [How can I apply my activation keys to my SonicWall? | SonicWall](#) for details.

Pricing

For NSM SaaS, Advanced Reporting and Analytics are included in two service suites: Advanced (7-Day) and Managed (30-Day) Protection Services. Customers may also purchase Advanced Reporting and Analytics or extend the services using the Add-On SKUs.

Advanced Reporting and Analytics log retention periods are available for 7, 30, 90, and 365 days. The SKUs are embedded in the firewall SKU tables.

For NSM On-premises: MPSS is not supported. Add-on Advanced Reporting and Analytics are available for 7-and 365-day options. There is no Basic Reporting for NSM On-Premises.

The complete SKU list is published in the regional price list.

About SonicWall

[SonicWall](#) is a cybersecurity forerunner with more than 30 years of expertise and a relentless focus on its partners. With the ability to build, scale and manage security across the cloud, hybrid and traditional environments in real time, SonicWall can quickly and economically provide purpose-built security solutions to any organization around the world. Based on data from its own threat research center, SonicWall delivers seamless protection against the most evasive cyberattacks and supplies actionable threat intelligence to partners, customers and the cybersecurity community.
