

SolarWinds Federal Premium Support Level 5

A complex, organization-critical government IT environment demands an expert who can provide personalized attention to quickly resolve issues and optimize performance. Federal Premium Support provides customers with fast response times leveraging a U.S. Based support organization. SolarWinds partners with you to drive the organization further and technical outcomes most critical to your entity..

FEATURES AND BENEFITS

SolarWinds® Federal Premium Support Level 5 is designed for our government customers who need a Trusted Advisor within the SolarWinds support team. SolarWinds works with you up to 15 times a year on maintenance and upgrades. Federal Premium Support Level 5 delivers cases worked by federally experienced support engineers who are U.S. Citizens, and on-demand access to US citizens within the support team at a price you can afford.

Federal Premium Support Level 5 Offerings include:

- 24/7 access to Federal-grade Support
- 30-minute response time for P1 cases
- One-hour response time for P2 cases
- Skip-tier to L3 engineers
- Designated U.S.citizen Escalation Managers
- Assigned U.S. citizen Customer Success and Technical Success Manager
- Cases worked by U.S.citizen engineers with appropriate security credentials on 24-hour basis
- Up to 15 advanced scheduled sessions for maintenance and upgrade needs
- Up to 12 joint technical and business reviews per year
- Trusted advisors with proven experience within the Federal and/or SLED markets
- Expert driven health checks
- Proactive engagement
- Access to self-led onboarding resources
- Expert services
- Access to THWACKcamp™
- SolarWinds Academy training
- SolarWinds professional certifications by Solution

- Online Customer Success Center
- Knowledge base articles
- Best practice content and standard operating procedures tailored to the Federal market

Federal Premium Support Benefits:

- Enables organization continuity
- Drives solution adoption
- Accelerates time to value
- Boost team performance
- Improves user experience
- Minimizes downtime
- Reduces organizational risks

CASE DESIGNATION DEFINITION

SolarWinds provides you with a technical support team to work on cases during the location-specific hours detailed below.

- P1 is defined as Critical/System Down – Customer’s production use of SolarWinds software is stopped or so severely impacted that no user can reasonably continue to use or access the software. Critical requests have one or more of the following characteristics: a) data corruption b) SolarWinds software hangs causing unacceptable delays or c) the SolarWinds software is inaccessible to all users.
- P2 is defined as High – Customer experiences a disruptive loss of use of the SolarWinds software. Important features are unavailable with no acceptable workaround; however, operations can continue in a restricted fashion.
- P3 is defined as Medium – Customer experiences moderate to minor loss of SolarWinds software use or a feature/operation generated a result that wasn’t expected. The impact is isolated and an inconvenience, however, use and access to SolarWinds software can continue.
- P4 is defined as Low – Customer requests information, an enhancement, or documentation clarification regarding SolarWinds software but there is no impact on the use or access of SolarWinds software.

FEDERAL PREMIUM SUPPORT HOURS

U.S. Business Hours

- North America: 7 a.m. – 7 p.m. (EST) Monday to Friday

After U.S. Business Hours

SOLARWINDS SERVICES AND SUPPORT

SolarWinds offers a wide range of services and technical support to help you accelerate time to value and maximize the returns from your SolarWinds investment. Contact your SolarWinds Federal sales representative or authorized Federal Partner to learn more about our Federal support, deployment, and professional services offerings.

Support Services

We offer 24/7 on our live support tiers, self-help tools, access to our THWACK community, and proactive success management services. Our support services also include access to online training and to technical experts with U.S.-based options and performed by staff with active security credentials.

Deployment and Professional Services

To help meet your organizational needs, we offer various custom deployment and Federal professional services to assist during the planning, deployment, implementation, maintenance, and optimization of your SolarWinds environment.

Program Limitations

Support doesn't include the development of custom scripts, reports, templates, SQL queries, perform analysis of or troubleshoot performance problems related to third-party products, or SQL or Operating System issues. SolarWinds will not take control of a company's environment to perform full installations, configurations, migrations, or upgrades. SolarWinds will not go on-site to the company to perform any support organizational needs. We do offer various custom deployment and Federal professional services packages to assist you during the planning, deployment, implementation, maintenance, and optimization of your SolarWinds environment for an extra cost, should there be an advanced need.

For more information on SolarWinds services and Federal support, please visit www.solarwinds.com or www.monalytic.com.

ABOUT SOLARWINDS

SolarWinds (NYSE:SWI) is a leading provider of simple, powerful, and secure IT management software built to enable customers to accelerate their digital transformation. Our solutions provide organizations worldwide—regardless of type, size, or complexity—with a comprehensive and unified view of today's modern, distributed, and hybrid network environments. We continuously engage with technology professionals—IT service and operations professionals, DevOps and SecOps professionals, and database administrators (DBAs)—to understand the challenges they face in maintaining high-performing and highly available IT infrastructures, applications, and environments. The insights we gain from them, in places like our THWACK community, allow us to address customers' needs now, and in the future. Our focus on the user and our commitment to excellence in end-to-end hybrid IT management have established SolarWinds as a worldwide leader in solutions for observability, IT service management, application performance, and database management.
