

Disable NTLM: SAM 2022.4 (CVE-2022-47508)

Security Advisory Summary

Customers who had configured their polling to occur via Kerberos did not expect NTLM Traffic on their environment, but since we were querying for data via IP address this prevented us from utilizing Kerberos.

Affected Products

- Server & Application Monitor 2022.4

Fixed Software Release

- Hybrid Cloud Observability 2023.1
