Fast, simple, and lightweight cloud-based remote support. SolarWinds® Dameware Remote Everywhere (DRE): Designed to help IT professionals respond to and solve problems quickly. The right remote support solution doesn't just connect techs to machines, it saves time and resources.

SolarWinds® DRE provides a uniquely powerful remote support solution for IT professionals to access nearly any platform or device to solve issues quickly. It delivers clear visibility and communication capabilities to solve technical problems fast and delight end users. Packed with all the features of premium, expensive solutions, DRE offers powerful tools, reporting, and session monitoring at an affordable price. Whether responding to a user support request or performing unattended maintenance, with DRE, technicians can complete any remote support function with minimum clicks and time.

FOR YOUR TECHNICIANS

Techs need sharp, powerful tools to diagnose issues quickly and ensure end users get the service they expect. DRE offers some of the most advanced troubleshooting, communication, and security features to get the job done fast and right.

FOR YOUR BUSINESS

DRE not only provides clear dashboards and data to help you optimize business efficiency, but also gives you tremendous flexibility to brand and configure elements for your organization. DRE also considers iron-clad security fundamental, so you and your end users can rest assured that data is designed to stay safe at every point in the support process.

FOR YOUR END USERS

A simple and pleasant end-user experience is always the IT support professional's goal. Fast, simple connection and fluid communication are critical to making sure end users and technicians resolve issues swiftly, the first time.

ABOUT SOLARWINDS

SolarWinds (NYSE:SWI) is a leading provider of powerful and affordable IT management software. Our products give organizations worldwide—regardless of type, size, or complexity—the power to monitor and manage their IT services, infrastructures, and applications; whether on-premises, in the cloud, or via hybrid models. We continuously engage with technology professionals—IT service and operations professionals, DevOps professionals, and managed services providers (MSPs)—to understand the challenges they face in maintaining high-performing and highly available IT infrastructures and applications. The insights we gain from them, in places like our **THWACK** community, allow us to solve well-understood IT management challenges in the ways technology professionals want them solved. Our focus on the user and commitment to excellence in end-to-end hybrid IT management has established SolarWinds as a worldwide leader in solutions for network and IT service management, application performance, and managed services.
