

# Enterprise Operations Console

## Unified Visibility into Distributed Networks

Gain at-a-glance insight into enterprise network performance. SolarWinds® Enterprise Operations Console delivers a consolidated command center for unified visibility into the remote Orion® Platform throughout your geographically distributed networks.

## ENTERPRISE OPERATIONS CONSOLE AT A GLANCE

- View the status of any entity or group from up to 100 Orion Platform remote instances in a fully customizable, tile-based Enterprise Summary View
- Customize enterprise-wide maps and view topology, connectivity, and performance with Orion Maps in EOC
- Compare and correlate disparate data types and multiple entities from any Orion Platform server on a common timeline with the PerfStack™ performance analysis dashboard
- Built-in Asset Explorer allows you to search and filter monitored devices or elements
- Top five alert list ordered by frequency, with the ability to acknowledge alerts from within the Enterprise console
- Customizable enterprise-wide reporting engine

## TRY BEFORE YOU BUY. DOWNLOAD A FREE TRIAL.

Enterprise network management has never been simpler. SolarWinds Enterprise Operations Console delivers unified visibility into networks that are geographically dispersed or administrated by different groups. Download your free, fully functional trial today.

## SYSTEM REQUIREMENTS

Orion Platform products can be deployed on physical or virtual servers on-premises or in the cloud. These products can also be deployed via Azure or AWS marketplaces. For detailed system requirements, visit [support.solarwinds.com](https://support.solarwinds.com).

## ABOUT SOLARWINDS

SolarWinds (NYSE:SWI) is a leading provider of powerful and affordable IT infrastructure management software. Our products give organizations worldwide, regardless of type, size, or IT infrastructure complexity, the power to monitor and manage the performance of their IT environments, whether on-prem, in the cloud, or in hybrid models. We continuously engage with all types of technology professionals—IT operations professionals, DevOps professionals, and managed service providers (MSPs)—to understand the challenges they face maintaining high-performing and highly available IT infrastructures. The insights we gain from engaging with them, in places like our **THWACK** online community, allow us to build products that solve well-understood IT management challenges in ways that technology professionals want them solved. This focus on the user and commitment to excellence in end-to-end hybrid IT performance management has established SolarWinds as a worldwide leader in network management software and MSP solutions. Learn more today at [www.solarwinds.com](http://www.solarwinds.com).
