If you smoke cigarettes or cannabis, we ask that you do not smoke after midnight prior to your surgery date.

If you take medication to manage diabetes, contact the physician who prescribed the medication to determine dose required, if needed, for the night before and day of surgery.

Patients (children or adults) who begin to run a fever over 100 degrees, have a productive cough, general cold symptoms, vomiting or diarrhea 48 hours prior to surgery should contact their surgeon immediately as surgery may need to be rescheduled.

Any patient having sedation or anesthesia in our center will need to be accompanied by a responsible adult who must be present at the facility before discharge and accompany them home.
