

Employer RN services

Occupational health on-site services

Our employer RN solution provides your employees with an on-site, registered nurse to help meet their health care needs, whether in-person or virtually. This solution has a proven impact on productivity, health benefit cost savings, lost work time and employee satisfaction.

Service highlights

- Case management and navigation services.
- Coordinate, support and assist with virtual visits.
- First aid, clinical assessments, evaluations and counseling.
- Goal setting and accountability coaching.
- Health and wellness education.
- Health care event support and resource.
- Rounding with team members.

Services available as needed (ranging from five to 40 hours per week)

Corewell Health advantage

- Pricing.
- Ability to customize RN services based on employer and employee needs.
- Years of experience for both our virtual and in-person teams.

"We have been very happy with our RN on staff! Our students love having her available to provide care and a listening ear. So far, TytoCare has allowed many of our international students the ability to seek care when they do not have a local primary care provider. I am very pleased with our partnership!"
