Guillermo Yepes, MD
Assistant Program Director

What I love most about HDVCH and this residency is working with such an amazing, understanding, supportive team. Every member of the team from program leadership, coordinators, and all faculty in general are wonderful to work with. This makes our job easier

About Me

I was born and raised in Caracas, Venezuela, where I also graduated from med school. After graduation from I worked in an underserved community hospital in La Sabana, Venezuela as a general physician. I moved to the US in 2015 to start my training journey. Before residency, I worked as a research assistant with the Nephrology/Urology affinity group at Nationwide Children's Hospital in Columbus, Ohio for one year. I stayed at Nationwide Children's for training (both Pediatric residency and Infectious Disease fellowship). After completing training, I joined HDVCH as a Pediatric Infectious Disease faculty. My wife is also in medicine, specifically a Pediatric Nephrologist and also part of HDVCH faculty. I played baseball growing up and throughout high school and like sports in general but mostly follow baseball and soccer.

My Training

- Medical School: Escuela de Medicina Luis Razetti - Universidad Central de Venezuela
- Residency: Nationwide Children’s Hospital
- Fellowship: Nationwide Children’s Hospital

My Clinical Interests

- Pediatric Infectious Disease
- Medical Education
- Antimicrobial Stewardship

My Hobbies

- Sports in general. I do not play any since I stopped playing baseball, but I do follow professional baseball and soccer (mostly European)
- Traveling. My wife and I have family and friends in many different places. My favorite country to visit overall, besides going back home to Venezuela, has been Spain as since every time we go, we meet with a lot of friends, family and people we love.
