Caroline Buckley, MD
Associate Program Director

What I love most about HDVCH and this residency is…the people and environment. It's cheesy but true! Everyone at this hospital is truly devoted to providing quality care to kids and their families while also

About Me

- I am a through and through Michigander! I was raised on the East side of Michigan and spent most of my life over there until moving to the West side for med school, and I never plan to leave this amazing state. I absolutely loved training at HDVCH and am excited to continue giving back to the program as an APD. Aside from the fun, joy, and occasional chaos that comes with being a pediatrician, what I love most about my job is getting to work with residents in the residency clinic and help them become the best pediatricians they can be!

My Training

- Undergraduate: University of Michigan- Ann Arbor
- Medical School: Western Michigan University Homer Stryker M.D. School of Medicine
- Residency: Helen DeVos Children's Hospital

My Clinical Interests

- General Pediatrics
- Medical Education

My Hobbies

- Listening to Music- especially Taylor Swift. I've been an OG fan since 2007, and one of my greatest life regrets is not going to the Reputation tour.
- Spending time with my family, dogs and friends.
- Watching cheesy reality, romance, or random TV shows. I love all things pop culture!
