

Clinical Genomics Research Projects 2024

Head: A/Prof Jodie Ingles

Garvan Institute
of Medical Research

Clinical Genomics Laboratory

NSW HEARTS

www.nswhearts.org.au

17+ years

Diagnosed with an inherited cardiomyopathy

- Hypertrophic cardiomyopathy
- Arrhythmogenic cardiomyopathy
- Dilated cardiomyopathy
- Left ventricular non-compaction

Study involves medical record collection, some surveys and a blood sample for biobanking.

Expressions of interest form (**Clinician** to complete)

Sudden Cardiac Arrest Registry

Age 1-50 years at the time of arrest

Cardiac arrest survivors

Deceased individuals (next of kin consent)

Family members

The study involves medical record collection, some surveys, and blood sample collection.

Support for family at www.copescd.org.au

Expressions of interest form (**Clinician** to complete)
