

Amplify Petrol Fuel System Cleaner

Amplify Petrol Fuel System Cleaner is a single use, concentrate of Ampol's proprietary, multipurpose performance additive used to improve the quality of gasoline. Ampol Amplify Petrol Fuel System Cleaner contains a deposit control additive, friction modifier, corrosion inhibitor and demulsifier. The product is a blend of PIB-monoamine and polyether compounds and synthetic carrier solvents.

Benefits

When dispersed into the fuel tank, Amplify Petrol Fuel System Cleaner will provide petrol with the following performance features:

- Efficiently controls and removes vehicle intake system deposits
- Contains a very effective friction modifier which reduces friction in the engine and helps to further reduce fuel consumption
- Contains a very effective corrosion inhibitor which protects tanks and fuel lines against corrosion
- Includes a demulsifier that provides optimum water phase separation in storage tanks
- Potential reduction in fuel consumption (depending on vehicles and road conditions)

Applications

Ampol Amplify Petrol Fuel System Cleaner is for use in spark ignition engines designed to use unleaded petrol.

Availability

- 300ml single use pour bottle

Environment, health and safety

Users should consult the SDS, follow the precautions outlined and comply with all laws and regulations concerning its use and disposal.
