

# Ampol Community Drop-in Session Mod-7 Application

In May 2025, Ampol lodged a seventh modification (Mod-7) to the Kurnell Refinery Conversion Project. The modification was to further consolidate operational infrastructure, remove redundant assets and undertake remediation. The Modification Report was placed on public exhibition in July 2025.

We made some recent changes to the project and carried out some additional assessments to support the proposed work. We have also reviewed the submissions and provided responses in a Submissions Report.

This report was submitted to the Department of Planning, Housing and Infrastructure in early February 2026. The report will be available on the NSW Planning Portal once their review is complete.

To help the community understand these updates, Ampol is holding a **community drop-in information session**. This is an opportunity to speak directly with our team, ask questions, and learn more about:

- How we have responded to issues raised in submissions
- Changes made to the project
- Additional assessments undertaken
- The Kurnell Energy and Industry Precinct (KEIP) environmental assessment

Wednesday  
11 March 2026

5pm to 7pm

Marton Community Hall  
92 Captain Cook Drive,  
Kurnell
