

2023 SANS Multi-sponsored Surveys

SANS

Hear What Attendees are Saying

“Great session.
Enjoyed the war
stories and
recommendations.

“I appreciate all of the
panelists and the SANS
TEAM for this event, I’ve
learned a lot!

“Awesome event! Lots of great insights
from all the speakers and great
interacting with attendees. Looking
forward to the next one.

SANS 2023 ICS/OT Cybersecurity Survey: 2023's Challenges and Tomorrow's Defenses

SURVEY RELEASE DATE:

9/20/2023

11:00 AM–3:00 PM (ET)

WEBCAST HOST:

AUTHOR:

Jason D. Christopher
Certified Instructor

Dean Parsons
Certified Instructor

The ICS threat landscape has changed significantly in the last few years with the discovery of more ICS-specific scalable attack frameworks. Changes have also been seen in ICS defense technologies, the use of actionable ICS threat intelligence, and the number of certified ICS defenders with the required skills to protect our critical infrastructure.

In the 2023 SANS ICS/OT Cybersecurity Survey, Certified Instructor Dean Parsons will ask key questions and analyze answers to explore how critical infrastructure defenders across all sectors are constantly adapting to address new challenges and threats in ICS/OT security. Survey topics include but are not limited to (1) Actual and perceived risks, (2) The impacts of cyber events in ICS/OT, (3) The challenges of implementing and maturing ICS/OT cybersecurity, (4) ICS/OT cyber protection goals and (5) Areas of technology and resource investments to protect our critical infrastructure.

Join us as we gather, analyze and draw out the main takeaways from the 2023 SANS ICS/OT Cybersecurity Survey in the related webcast and download your copy of the survey. Review the survey for all the details and find out where organizations are investing in ICS/OT security, where the gaps are, the sectors targeted and how you can mature your security program to better manage evolving threats while maintaining the safety and reliability of operations.
