Application to Upskill in Cyber

The assessment and selection for Upskill in Cyber is a four-stage process:

Application Form

You will complete a form which collects essential personal information as well as providing you with an opportunity to let us know why you would be an ideal candidate for this programme.

Aptitude Assessment

The SANS CyberTalent Enhanced Assessment has been developed to determine if an individual has the aptitude and basic skills to succeed in information security. The 50-item exam was developed by information security subject matter experts and predicts potential success on GIAC exams.

Interview

Shortlisted candidates will be invited to a 15-minute video interview. The purpose of the interview is to understand your motivations for applying and to assess your suitability for the programme.

Offer of Upskill in Cyber Place

If you have been successful in your application, a place on the programme will be offered to you. Proof of identification will be sought at this stage, and a Student Agreement will be sent to you to read and sign. Joining instructions will then be sent to you.
