## GRID

Defend Your Grid Against the Latest Cyber Threats  
**Polish Energy Grid Cyber Exercise Case Study**

*“Certainly, a major attack with a large geopolitical tension will be multi-vector. It strikes not only in the Polish power infrastructure, but also in other sectors of strategic infrastructure, but also in the sectors of neighboring countries. Such a multi-vector and distributed attack would be able to paralyze the lives of at least several communities. **That’s why we have to work together, get to know each other and build mutual trust.**”*

– Eryk Kłossowski, President of Polskie Sieci Elektroenergetyczne
