SANS
CLOUD SECURITY

Gain the Skills Needed to Become a Cloud Security Ace

SANS Cloud Defender 2022 (January 10-15, EST) provides intensive, immersion training designed to help you master the practical steps necessary for defending systems and applications in the cloud against the most dangerous threats.

SANS Cloud Security focuses the deep resources of SANS on the growing threats to the cloud by providing training, GIAC certifications, research, and community initiatives to help security professionals build, deploy and manage secure cloud infrastructure, platforms, and applications.

Our courses are full of immediately applicable techniques that you can use as soon as you return to work. Choose your Live Online course and register now!

SANS Cloud Defender 2022 Features

- Practical cybersecurity training taught by real-world practitioners
- Real-time support from GIAC-certified teacher assistants
- Dedicated chat channels for networking
- Hands-on labs in a virtual environment
- Courseware in electronic and printed books
- Several courses aligning with GIAC certifications
- Archive of course lectures uploaded to your account daily during the event
- Four months of access to your course lectures recordings

"Having an SME instructor with tons of real-world experience makes the course material easy to digest, and the Live Online platform is the best platform I've experienced!"

—Jeremy Swanson, **ManTech**

"This Live Online training has been very productive and it is very comparable to in-person training. The detail of information and the instructor's knowledge was fantastic."

—Teresa F., **U.S. Military**

Enhance your training experience. Add a GIAC Certification attempt and OnDemand Bundle to your course.

Distinguish yourself as an information security leader and get certified with GIAC Certifications. **giac.org**

Extend your training experience with an **OnDemand Bundle**. Receive four months of supplemental online review and 24/7 online access to your course lectures, materials, quizzes, and labs. **sans.org/ondemand/bundles**
