

SANS 2021 Ransomware Detection and Incident Response Report

Author: **Matt Bromiley**

Analyst Program 

OVERVIEW

Ransomware attacks have become some of the most prolific and public intrusions over recent years. Within a matter of hours, organizations can go from normal operations to having an inoperable network and being extorted for tens of millions of dollars. While nations convene meetings to find ways to combat these global threats, organizations remain in the crosshairs of opportunistic attackers.

MEET THE AUTHOR

Matt Bromiley
SANS Certified Instructor

Matt Bromiley is a principal incident response consultant at a top digital forensics and incident response (DFIR) firm, where he assists clients with incident response, digital forensics, and litigation support. He also serves as a GIAC Advisory Board member, a subject-matter expert for SANS Security Awareness, and a technical writer for the SANS Analyst Program. Matt brings his passion for digital forensics to the classroom as a SANS Instructor for FOR508: Advanced Incident Response, Threat Hunting and Digital Forensics, and FOR572: Advanced Network Forensics, where he focuses on providing students with implementable tools and concepts.

Topics will focus on:

- Common traits of ransomware attacks
- How organizations can craft better detections based on these traits
- How to build response plans catered to ransomware attacks

SPONSOR

- Sponsors can voice their thoughts on modern detection and response with ransomware breaches. Since the focus of this report is on the correct steps for creating a response plan(s) aimed at ransomware attacks, sponsors will also have the opportunity to share how their solutions fit into developing a successful response plan(s).
- Cobrand the survey results whitepaper and webcast.
- Collaborate with SANS' best cybersecurity experts who are at the forefront of the ever-changing war on cybersecurity.
