Practical AI

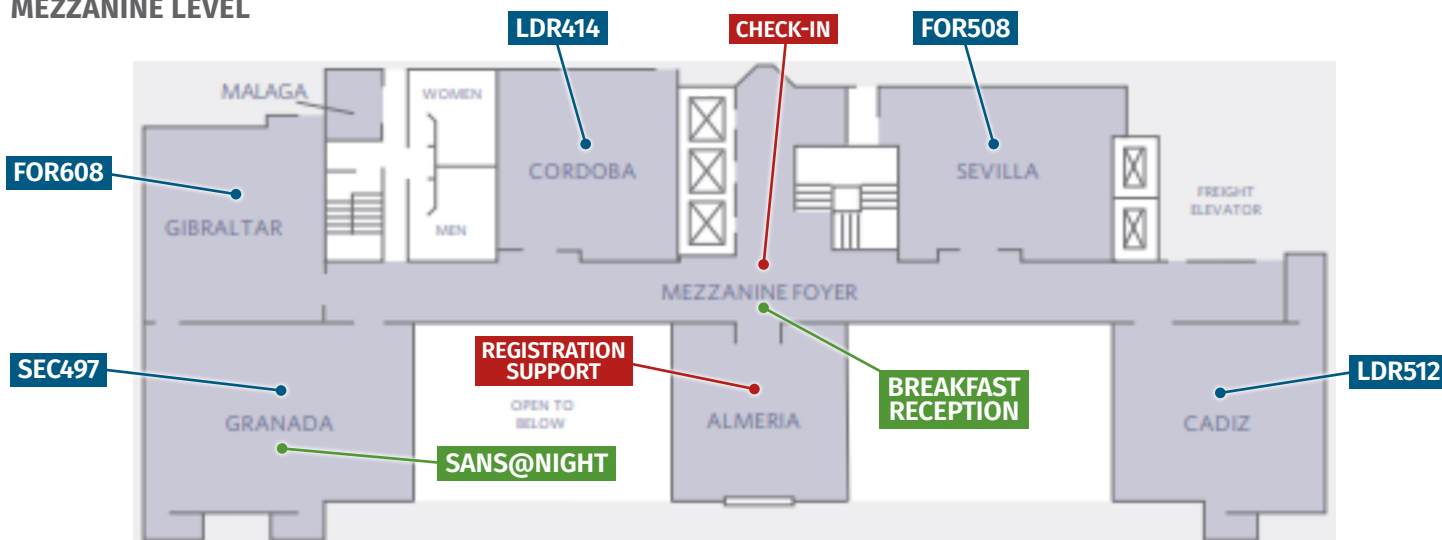

Speaker: Matt Edmondson

Wednesday, June 12 | 7:00–8:00 PM | LOCATION: Granada (MEZZANINE LEVEL)

Last year, my ChatGPT for OSINT webinar exposed thousands of users to real-world ways that AI was helping me in my work. Everything discussed is still 100% valid, but it's not hyperbole to say there are daily advancements in the space. This talk will focus on practical ways people use AI to increase productivity in any OSINT or cybersecurity role. No math, no theories, just how to make the tech do things that can make your life easier.
