

The most trusted source for cybersecurity training, certifications, degrees, and research

## SANS Seattle

December 2–7, 2024  
Seattle, WA & Virtual (PT)

### Ten Hands-On Cybersecurity Courses Taught by Industry Experts

Attend In-Person at the venue in Seattle or Live Online

Discover the most effective steps to prevent cyber-attacks and detect adversaries with actionable techniques taught by top practitioners during **SANS Seattle 2024**. Choose your course and register now for hands-on training you can use immediately.

#### SANS Seattle 2024 Features

- In-Person or Live Online training
- Take your training at the training venue with professional support
- Practical cybersecurity training taught by real-world practitioners
- Hands-on labs in a virtual environment
- Courses include electronic and printed books
- Several courses align with GIAC certifications

#### Training Modalities

##### Live Online

SANS Live Online training offers live, interactive streaming sessions delivered directly from your instructor. It features many of the activities that SANS students love at training events, such as bonus topical presentations, cyber range challenges, networking via chat channels, and live access to top SANS instructors. Live Online is a flexible and fun way to learn.

##### In-Person

In-Person training offers students the chance to study in a focused environment without distraction but perhaps most importantly, they offer a direct access to SANS's world-leading instructors.

“Having an SME instructor with tons of real-world experience makes the course material easy to digest, and the Live Online platform is the best platform I’ve experienced!”

—Jeremy Swanson, **ManTech**

“Fantastic, passionate, and engaging! The instructor supplemented the course content with experience-related scenarios, improving the learning experience and making it extremely interesting.”

—Eliza-May Austin, **Visa Inc.**

“SANS creates a one-of-a-kind learning experience providing world-class training and fascinating opportunities to network and gain new perspectives from your peers!”

—Justin E., U.S. Federal Agency

“The instruction at SANS is top-notch. I have been to several SANS training courses and they never disappoint. The instructors bring real-life experiences and show the students how the material can be applied.”

—Thomas Seck, Johns Hopkins APL
