AIS247: AI Security Essentials for Business Leaders™

sans.org/AIS247

Navigate the AI Revolution with Confidence: A Premier Course for Business and Cyber Leaders

Embark on your AI journey with the SANS Institute's "AI Security Essentials for Business Leaders," an on-demand, online course meticulously crafted for today's business and cyber leaders.

▶ **Demystifying AI for Strategic Advantage**
This course unravels the complexities of AI, offering an insightful overview of its role in modern business. Understand the origins, functionalities, and applications of AI tools in a format that's ideal for busy professionals.

▶ **Cybersecurity in AI: An Essential Overview**
Receive an essential overview of cybersecurity as it pertains to AI. While not a deep technical dive, the course equips leaders with the fundamental knowledge of cybersecurity remediation tasks related to AI, enabling you to oversee AI initiatives with a keen eye on security risks.

▶ **Policy Development for AI Implementation**
Learn how to develop and implement AI policies that align with ethical standards and legal requirements. The course guides you through the intricacies of AI policy formulation, ensuring your organization navigates the AI landscape responsibly.

▶ **Accessible Learning at Your Fingertips**
As an entirely online, on-demand offering, this course fits seamlessly into the schedules of professionals. Access cutting-edge AI content from anywhere, at any time, through the SANS Institute's digital learning platform.

▶ **Join Now: Lead with Confidence in the AI Era**
Visit the SANS Institute webpage to enroll in **AIS247: AI Security Essentials for Business Leaders**. Position yourself at the forefront of AI-enabled business leadership.
