Using Chapter 31, Veteran's Readiness and Employment (VR&E) at SANS.edu

1) SANS Technology Institute (SANS.<mark>edu</mark>) versus the SANS Institute (SANS.<mark>org</mark>)
- The SANS Technology Institute (www.sans.edu) is the ***accredited*** higher educational subsidiary of the larger SANS Institute: The ESCAL Institute of Advanced Technologies, Inc. (www.sans.org).

2) VR&E Authorizations:
- All Veteran's Readiness and Employment (VR&E) Authorizations must be submitted in the Tungsten Network by your VR&E Counselor, and approved in the Tungsten Network by veterans@sans.edu before you can begin New Student Orientation (NSO).
- When your counselor is looking for SANS Technology Institute (SANS.edu) in the Tungsten Network, this is the information they will need:
  - Company Name: **SANS Technology Institute**
  - Facility code: 21000620
  - Seller contact: veterans@sans.edu (do not use any other email address)

3) Enrollment Period Start Date:
The enrollment period start date on your Ch31 VR&E Authorization should reflect the first day of your first course, which is often 30 days after your New Student Orientation (NSO) start date. This is important while working with your counselor and submitting your application. Click the following link, then click on the correct program in the panel on the right to view application due dates and associated NSO start dates: https://www.sans.edu/admissions/.
