

The most trusted source for cybersecurity training, certifications, degrees, and research

SANS Orlando Fall

October 28–November 2, 2024

Orlando, FL & Virtual (ET)

21 Hands-On Cybersecurity Courses Taught by Industry Experts

Attend In-Person at the venue in Orlando or Live Online

Discover the most effective steps to prevent cyber-attacks and detect adversaries with actionable techniques taught by top practitioners during **SANS Orlando Fall 2024**. Choose your course and register now for hands-on training you can use immediately.

SANS Orlando Fall 2024 Features

- In-Person or Live Online training
- Take your training at the training venue with professional support
- Practical cybersecurity training taught by real-world practitioners
- Hands-on labs in a virtual environment
- Courses include electronic and printed books
- Several courses align with GIAC certifications

Training Modalities

Live Online

SANS Live Online training offers live, interactive streaming sessions delivered directly from your instructor. It features many of the activities that SANS students love at training events, such as bonus topical presentations, cyber range challenges, networking via chat channels, and live access to top SANS instructors. Live Online is a flexible and fun way to learn.

In-Person

In-Person training offers students the chance to study in a focused environment without distraction but perhaps most importantly, they offer a direct access to SANS's world-leading instructors.

SANS NETWARS

NetWars Tournament

We are hosting NetWars Tournaments “in-person” during this event. These tournaments are only available in-person, and as a paid course registrant, you’ll be eligible to participate for FREE. Space is limited. No attendance options are available for Live Online course registrants.

sans.org/cyber-ranges

“Having an SME instructor with tons of real-world experience makes the course material easy to digest, and the Live Online platform is the best platform I’ve experienced!”

—Jeremy Swanson, ManTech
