

Dē-'fər-'kän 2024

SPECIAL EDITION

November 17–23

Coral Gables, FL & Virtual (ET)

Seventeen Hands-On Cybersecurity Courses Taught by Industry Experts

Attend In-Person at the venue in Coral Gables or Live Online

Discover the most effective steps to prevent cyber-attacks and detect adversaries with actionable techniques taught by top practitioners during **SANS DFIRCON Miami 2024: Special Edition**. Choose your course and register now for hands-on training you can use immediately.

SANS DFIRCON Miami 2024: Special Edition Features

- In-Person or Live Online training
- Take your training at the training venue with professional support
- Practical cybersecurity training taught by real-world practitioners
- Hands-on labs in a virtual environment
- Courses include electronic and printed books
- Several courses align with GIAC certifications

Training Modalities

Live Online

SANS Live Online training offers live, interactive streaming sessions delivered directly from your instructor. It features many of the activities that SANS students love at training events, such as bonus topical presentations, cyber range challenges, networking via chat channels, and live access to top SANS instructors. Live Online is a flexible and fun way to learn.

In-Person

In-Person training offers students the chance to study in a focused environment without distraction but perhaps most importantly, they offer a direct access to SANS's world-leading instructors.

SANS NETWARS

NetWars Tournament

We are hosting a NetWars Tournament "in-person" during this event. This tournament is only available in-person, and as a paid course registrant, you'll be eligible to participate for FREE. Space is limited. No attendance options are available for Live Online course registrants.

Community Learning Day at DFIRCON

Sunday, November 17 | 8:00 AM–5:30 PM

Join us for an exclusive, in-person Community Learning Day just before DFIRCON begins, focused on enhancing your cybersecurity skills with open-source tools. This special day offers a unique opportunity to learn from industry-leading experts through interactive tutorials. These sessions will guide you through the practical applications and best practices of using these tools in cybersecurity. You'll gain actionable skills and insights directly from the authors and developers in this immersive experience.

Community Learning Day is exclusive for in-person attendees.
