SECURITY

Gain the Skills Needed to Become a Cloud Security Ace

SANS Cloud & DevOps 2021 (Oct 18-23) provides intensive, immersion training designed to help you master the practical steps necessary for defending systems and applications in the cloud against the most dangerous threats.

SANS Cloud Security focuses the deep resources of SANS on the growing threats to the cloud by providing training, GIAC certifications, research, and community initiatives to help security professionals build, deploy and manage secure cloud infrastructure, platforms, and applications. Our courses are full of immediately applicable techniques that you can use as soon as you return to work.

SANS Cloud & DevOps 2021 Features

- In-Person Training for SEC510 and FOR509
- Live Online Training for SEC488, SEC540, and SEC588
- Practical cyber security training taught by real-world practitioners
- Hands-on labs in a virtual environment
- Courses include electronic and printed books
- Several courses align with GIAC certifications

Please note, courses are available either In-Person in San Francisco, CA or Live Online during this event. Please see course details below for availability. For In-Person courses, seating is available on a first-come, first-served basis. Register now to secure your spot.

“The real value of this training lies at the intersection of quality content and delivery by a subject-matter expert actively working in the field, making it incredibly relevant and immediately applicable to my job.”

—P. Watson, Microsoft Corp

“SANS offers the ultimate in quality instruction and thoughtful curriculum development. I learned so much this week and can’t wait to review and apply what I learned.”

—Tor Nilsson, SecurityLink AB

Enhance your training experience. Add a GIAC Certification attempt and OnDemand Bundle to your course.

Distinguish yourself as an information security leader and get certified with GIAC Certifications. giac.org

Extend your training experience with an **OnDemand Bundle**. Receive four months of supplemental online review and 24/7 online access to your course lectures, materials, quizzes, and labs. sans.org/ondemand/bundles
