SANS Phoenix-Tempe 2023 Features

- Practical cybersecurity training taught by real-world practitioners
- Hands-on labs in a virtual environment
- Courses include electronic and printed books
- Several courses align with GIAC certifications

Training Modalities

Live Online

SANS Live Online training offers live, interactive streaming sessions delivered directly from your instructor. It features many of the activities that SANS students love at training events, such as bonus topical presentations, cyber range challenges, networking via chat channels, and live access to top SANS instructors. Live Online is a flexible and fun way to learn.

In-Person

In-Person training offers students the chance to study in a focused environment without distractions but perhaps most importantly, they offer a direct access to SANS's world-leading instructors.

“The real value of this training lies at the intersection of quality content and delivery by a subject-matter expert actively working in the field, making it incredibly relevant and immediately applicable to my job.”

—P. Watson, Microsoft Corp

“This Live Online training has been very productive and it is very comparable to in-person training. The detail of information and the instructor’s knowledge was fantastic.”

—Teresa F., U.S. Military
