

Searchlight

Product Description

Introduction:

Searchlight is an online legal and regulatory horizon scanning tool designed to meet the needs of financial services firms and other global businesses. It serves as a key resource for teams responsible for regulatory tracking, business planning, and knowledge management. The tool covers a broad range of topics, including financial services regulation, tax, anti-money laundering (AML), employment, competition, and corporate governance.

Searchlight includes:

- **Regulatory Updates:**
 - Monthly full content reviews to reflect regulatory developments in each covered jurisdiction, ensuring all information is accurate and up to date.
 - Links to relevant regulations and consultations as well as to Simmons' own articles and thought leadership pieces for more in-depth analysis.
- **Platform functionality:**
 - Smart filters enable precise tailoring e.g., by jurisdiction, sector, topic and relevance.
 - Export-to-excel and print functionality.
- **Licence Features:**
 - Enterprise-wide licence with an unlimited number of users.
 - 24/7 access via the Simmons & Simmons Product Platform.

Service Level

The following service levels apply to our products:

- **Online Portal Access:**
 - For products that are provided via access to an online portal, we provide an availability target of 95% per month (calculated during UK business hours (Monday to Friday, 9 am to 5 pm, excluding bank holidays)).

- This availability target excludes any Downtime resulting from planned or emergency maintenance, ensuring minimal disruption to your access. Downtime means any time during which the Product is unavailable to access.
