

Want to turn your friends into hungry, furry werewolves?  
I mean...give them an hour to...uhhh... maybe not do that?  
(Seriously, am I ever going to get a werewolf army?!)

***FOLLOW THESE VERY IMPORTANT  
INSTRUCTIONS.***

## STEP 1: PRINT & CUT THE REPLACEMENT PAPERS

These can be found at [EscapeRoomInABox.com](http://EscapeRoomInABox.com)

### PRINTING

All puzzle papers should be printed in full color at 100% with no scaling. Make sure "fit to page" is OFF. You may need to click "auto rotate and center."

The Two-Sided Printer file is for those with printers capable of printing double-sided.

([EscapeRoom-PuzzlePages-DoubleSided.pdf](#))

If you cannot print double-sided, use the Front Side and Back Side files. Start by printing the Front Side images. Then, place those back into the printer to print the Back Side. Every printer is different. You may need to test this out with page 1 in each file to see how the paper needs to be placed the second time.

([EscapeRoom-PuzzlePages-SingleSided-Fronts.pdf](#))

([EscapeRoom-PuzzlePages-SingleSided-Backs.pdf](#))

## CUTTING

Cutting all pages so that they fit neatly into the boxes and envelopes is preferable, however the only one you absolutely must cut down to size is the "J" - FORTUNE TELLER puzzle.

### RULES

1) You will need a timer device and extra pencils. Note: looking at your phone, computer, encyclopedia, etc. for anything other than the time is CHEATING.

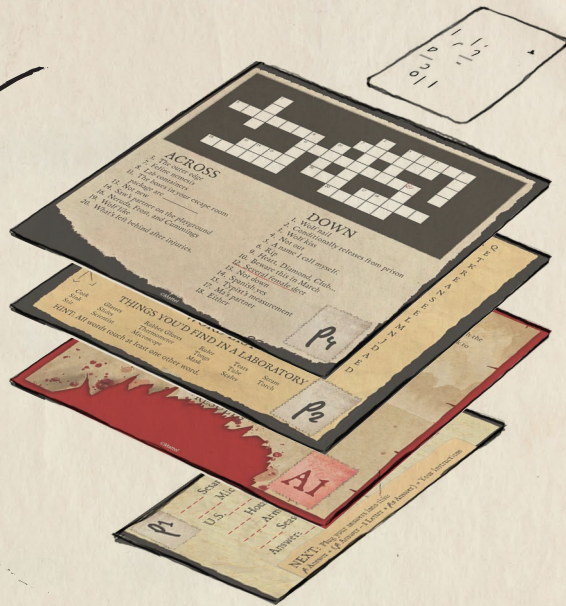

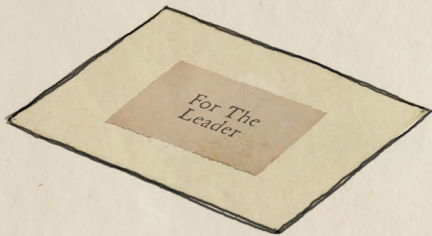

## CHECK THE PUZZLES

After printing, please double-check the following items:

- The "claws" in P3 (CONNECT THE DOTS) line up with the following squares on P4 (CROSSWORD) so that the letters from the crossword would appear inside the "claws":
  - o 12
  - o The second square of 7 across/ 2 down
  - o The square under 13
- The "G" holey paper lines up correctly with P2 (WORD SEARCH) so that you see the clue sentence through the holes.

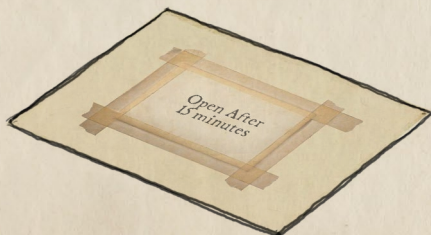

## STEP 2: RE-PACK THE ENVELOPES

### "For the Leader"

- P4 Puzzle
- P2 Puzzle
- A1 Answer Sheet
- P1 Puzzle
- One Transparency (It doesn't matter which one you choose.)

### "Open After 15 minutes"

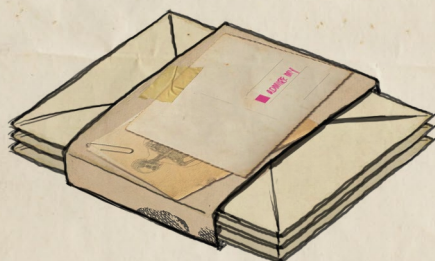

- Hint Booklet
- Note from Doc Gnaw - "Have you looked everywhere..."

"Open After 30 minutes"

- Answers Booklet
- Bonus Puzzle

Place the Envelope Sleeve over all three envelopes.

## STEP 3: RE-PACK ANTIDOTE JAR, BOXES & PENCIL

### ANTIDOTE JAR

Place the "You Win" note back in the jar. Replace the lock and spin the dials so the combination is not shown.

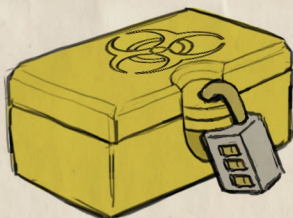

*This lock has 3 lines at the top.*

*Combination:  
784*

### BIOHAZARD BOX

- Paper with holes
- A2 Answer Sheet
- P8 Puzzle
- One transparency
- 2 Dinosaur puzzle pieces
- The Syringe - Place the letter beads back in the syringe out of order.
- Freeze Dried Beetle Larvae - Wind up the disc as much as you can and then gently place the device back in the envelope without allowing it to unfurl.

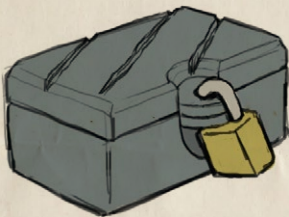

Replace the lock and spin the dials so the combination is not shown.

*This lock  
has 2 lines  
at the top.*

*Combination:  
135*

## BOX WITH CLAW MARKS

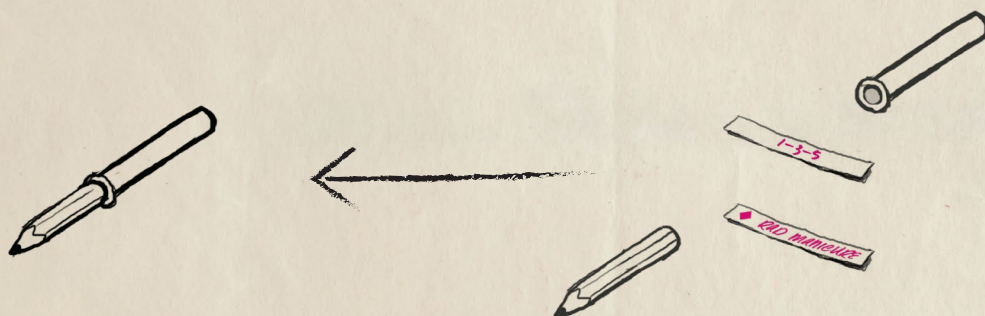

- "J" Fortune Teller
- P7 Puzzle
- One transparency
- 2 Dinosaur Pieces

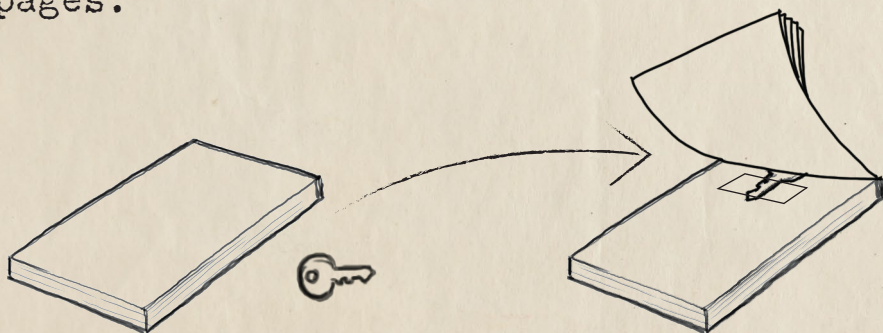

Replace the lock

## PENCIL & PAD

Place the two small UV notes in the pencil holder and put it back on the pencil.

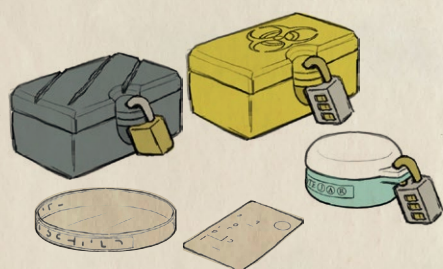

Open the paper pad to a page near the middle. Place the key towards the top of the page and tape it down. Close the pad and gently bend it in a couple directions to make the key seem less obvious. Discard any used or damaged pages.

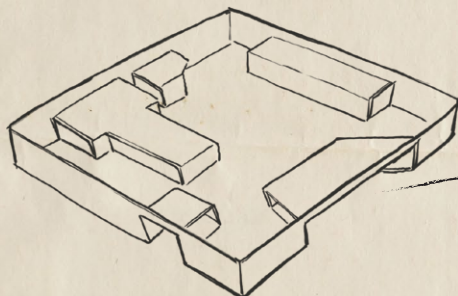

## REPACK BOX

Repack items from the bottom to the top.

### Step 1:

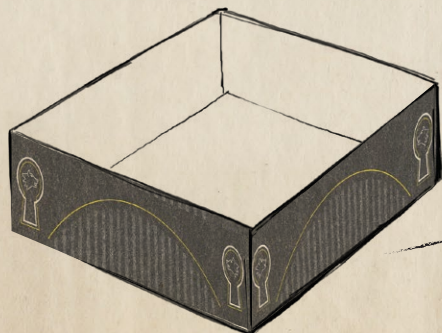

- Box with Claw Marks
- Biohazard Box
- Transparency
- Antidote Jar
- One-half of Petri Dish (It doesn't matter which one you choose.)

- Cardboard Insert (Place over P3 puzzle, hiding it.)

- P3 puzzle

- Bottom Lid of Box

## Step 2:

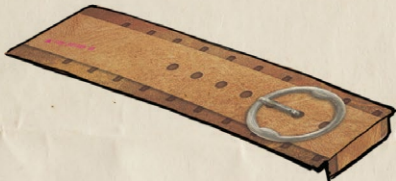

• Box Lid (with UV light attached)

• Keep Out Note

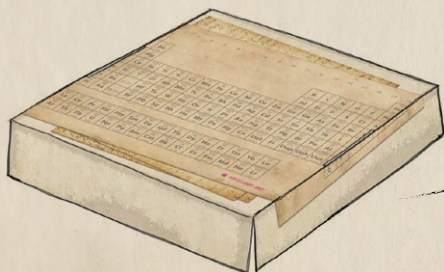

• Seriously Stop Note

• Belt Strap

- One-half of Petri Dish
- Pad of Paper (with key)
- All 3 Envelopes with Sleeve
- Pencil with holder (and small UV notes within)

• Periodic Table Insert (If the items are placed in the Cardboard Insert correctly, the Periodic Table Insert should be flat.)
