INSTRUCTIONS

FORD MUSTANG GTD

5+

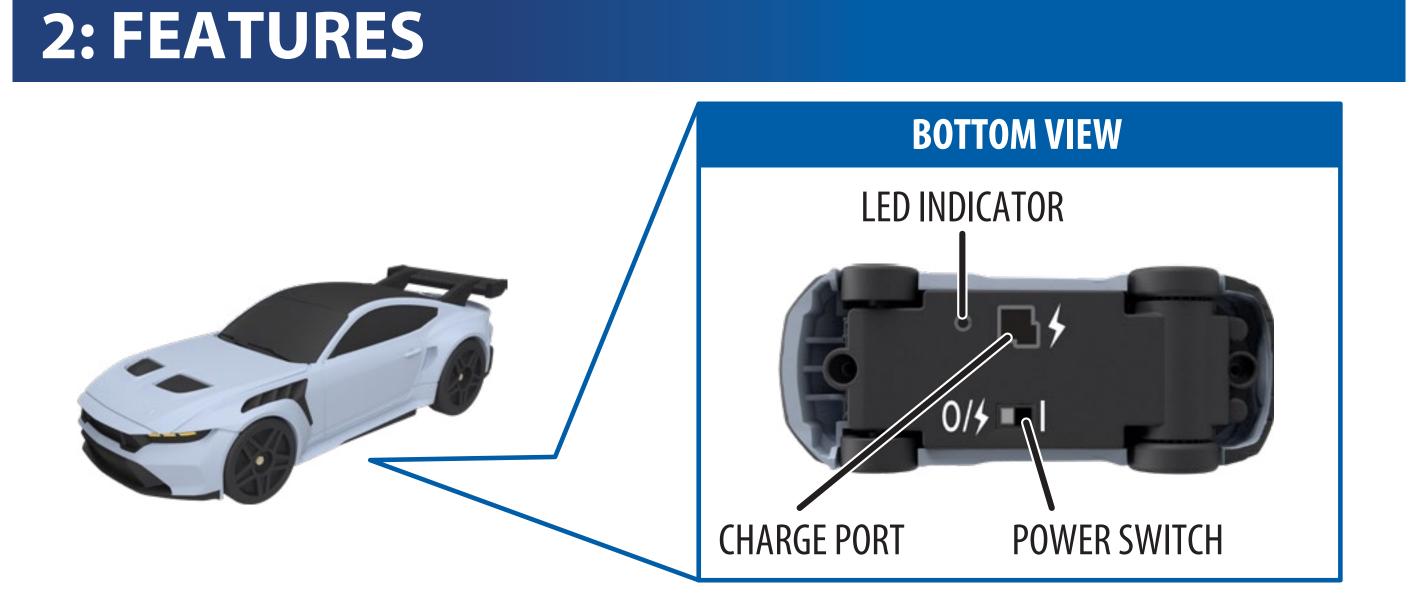

A CAUTION:

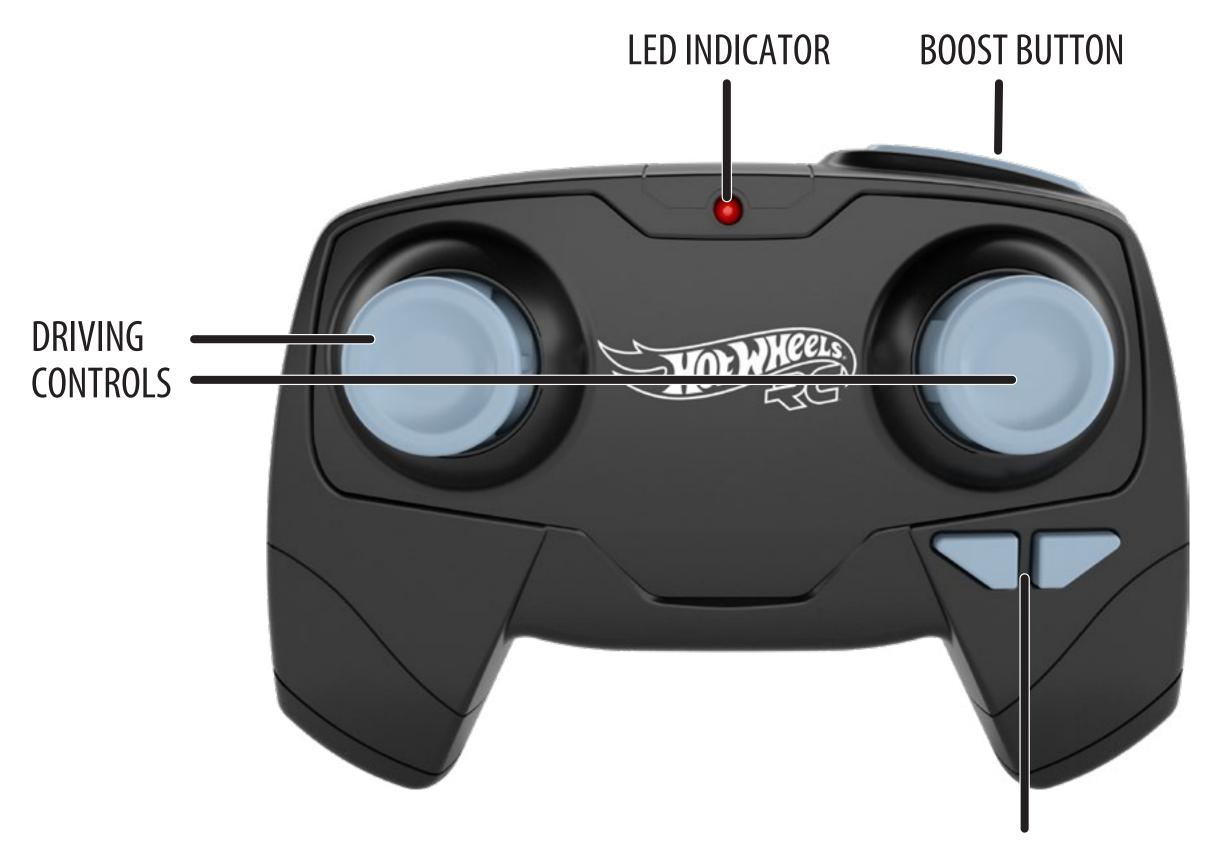

Surfaces may become hot and cause burns if electronics get wet. To prevent entanglement, keep all hair away from moving parts.

Adult supervision is recommended when the vehicle is being operated. Keep these instructions for future reference as they contain important information. IMPORTANT: Please read all instructions before operating your vehicle. The toy is only to be connected to Class II equipment bearing the symbol **□**.

1: CONTENTS

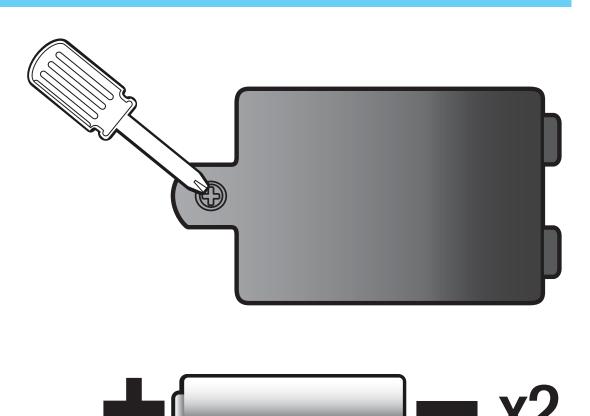

3: SET UP

A. REMOTE CONTROLLER BATTERY INSTALLATION

- 1. Unscrew the battery cover with a Phillips head screwdriver (not included).
- Install 2 AAA (LR03) 1.5V alkaline batteries (not included) with polarity (+/-) as shown inside the battery compartment. For longer life, use alkaline batteries.
- 3. Replace battery cover and tighten screw.
- 4. Replace batteries in the remote controller if the LED on the remote controller does not go on or if the vehicle does not respond well after a recharge.

AAA (LR03) 1.5V

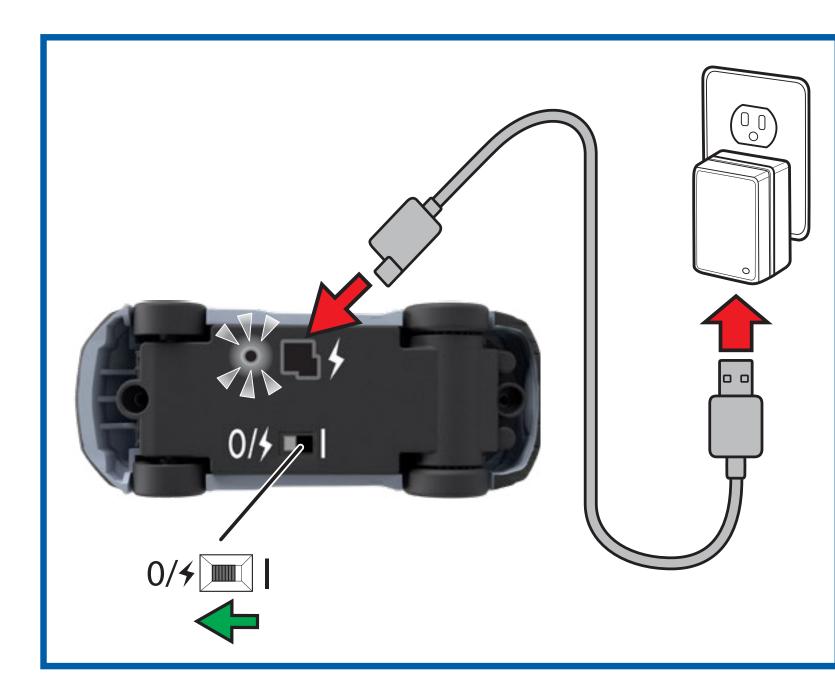

ALIGNMENT BUTTONS

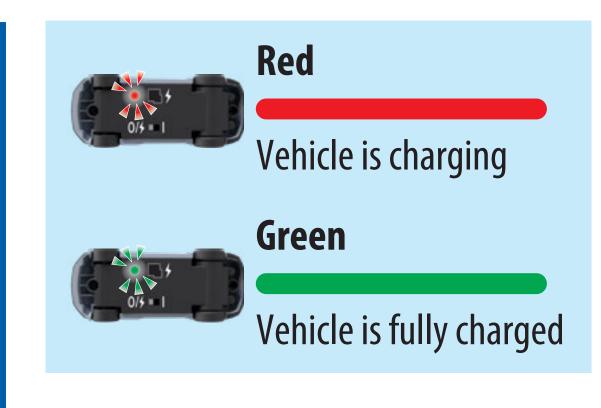

B. CHARGING THE VEHICLE

The vehicle is powered by a permanently installed Lithium-ion (Li-ion) battery, and it must be fully charged before first use.

- 1. Switch off the vehicle by sliding the power switch to OFF (0/4).
- 2. Connect one end of the charge cord to the vehicle's charge port and plug the other end in to a 5V/1A USB power adapter (not included).
- 3. Charging will begin when the cord is connected. A red LED on the vehicle will be on as the vehicle is charging.
- 4. The LED will turn green but remain on for a while when the vehicle is fully charged. Unplug the charge cord when charging is complete. A full charge will usually take approximately 30 minutes. Charging time may vary.
- 5. Recharge the vehicle when it begins to respond slowly.

NOTE: Power switch must be in the OFF (0/4) position when charging the vehicle.

TIP: The battery will be hot after play. Wait at least 10 to 15 minutes until the battery cools down before recharging the vehicle.

C. PAIRING THE REMOTE CONTROLLER AND VEHICLE

- 1. Slide the power switch to ON (I) on the vehicle.
- 2. Push the remote controller's driving control joystick forward/backward after switching on the vehicle.
- 3. Pairing is complete when the remote controller's LED changes from flashing red to solid red.

NOTE: If the vehicle does not respond to the remote controller after pairing, switch the vehicle off then back

on to try pairing again or replace the batteries in the remote controller if the batteries are drained.

TIP: The vehicle will go into sleep mode if left idle for approximately 5 minutes to preserve battery life. To resume normal play, slide the vehicle's power switch to OFF then ON, and then pair the vehicle and remote controller again.

D. STEERING ALIGNMENT

- 1. Check the vehicle's steering alignment before playing by driving it forward to see if it is driving straight.
- 2. If the vehicle automatically steers toward the right/left, press the alignment button in the opposite direction a few times until it runs in a straight line.

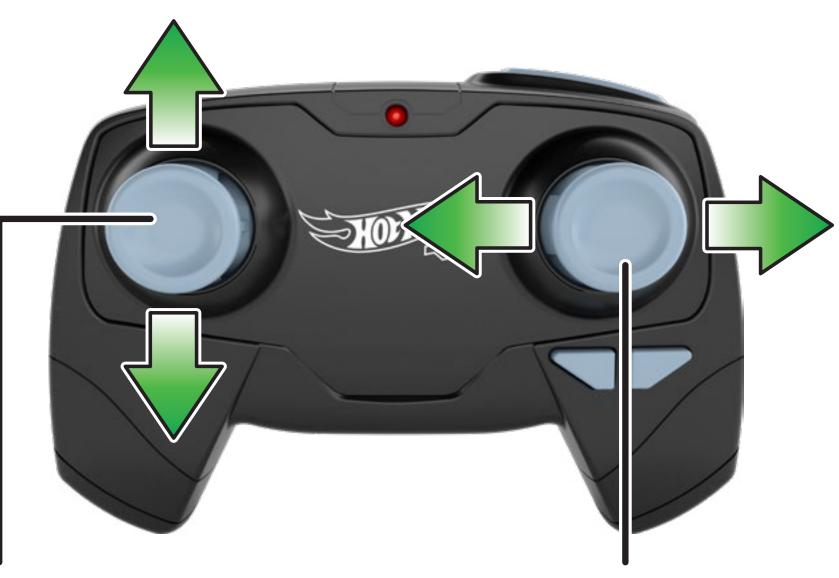

4: HOW TO DRIVE

CHECKLIST

- Is the vehicle fully charged?
- Is the remote controller equipped with fresh batteries?
- Is the remote controller paired with the vehicle?

CONTROLS

FORWARD/BACKWARD

LEFT/RIGHT STEERING

SPEED BOOST

Press the boost button for extra speed!

SKILL CHECK!

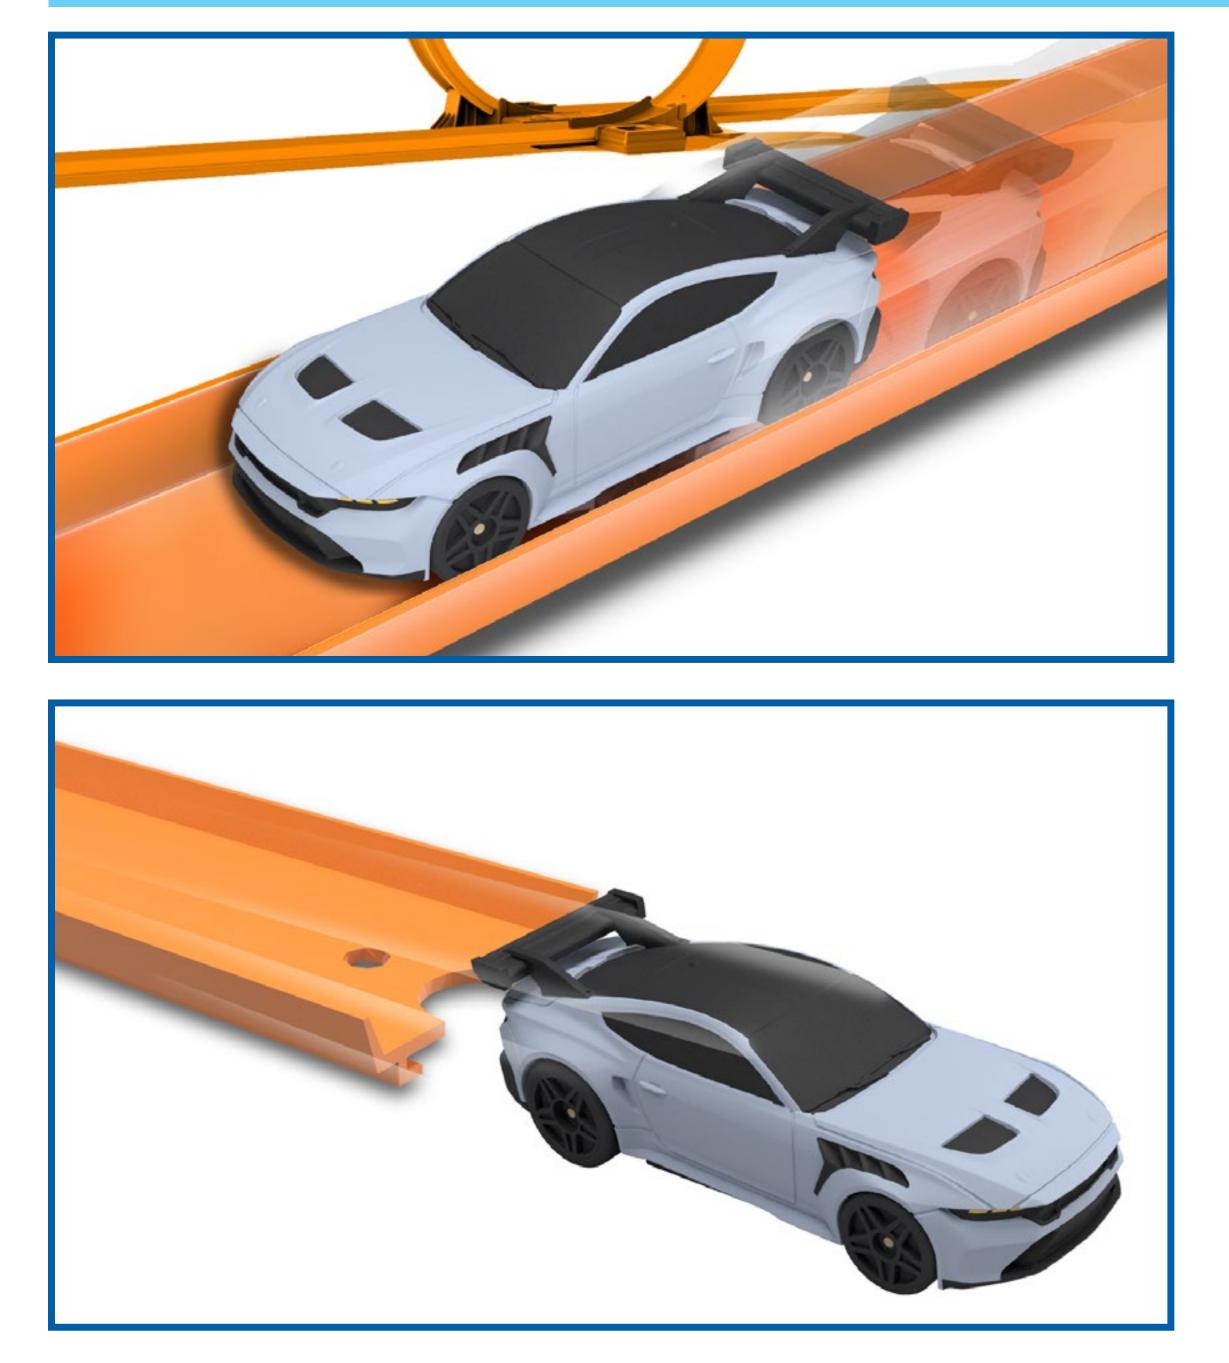

Remember, steering directions are

flipped on the remote controller

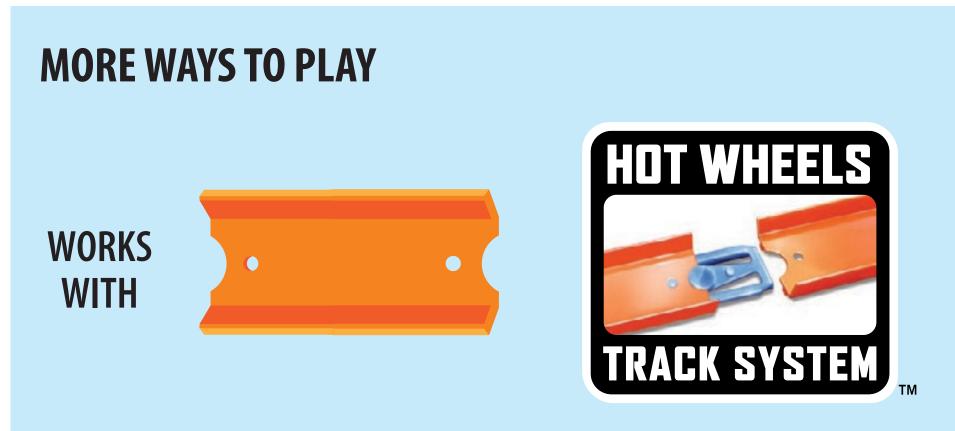

when you are driving backward!

RACE ON TRACK AND OFF TRACK!

NOTE: Operating range of the remote controller is up to 25 m (80 ft).

Race on and off various Hot Wheels[®] tracks and sets for a new challenge! **NOTE:** Avoid driving through launchers and boosters as they may damage the vehicle. Tracks and sets not included. Sold separately, subject to availability.
