- **SI Pop-Up**
- **Norfolk, VA**
Old Dominion University*
July 28–30
- **San Diego 2, CA**
August 3–5

*SI Pop-Ups

A compact and intimate three-day Summer Institute featuring 12 hours of CoPs, an inspiring General Session, and dedicated Site Team planning time.

Grow Your Impact This Summer!

Spend three focused days with AVID educators who share your belief in every student's potential.

Across the country, we are coming together to learn, share, and plan so you start day one of school with ready-to-use strategies, meaningful connections, and a clear plan to advance college, career, and life readiness for all students.

What You'll Experience Communities of Practice (CoPs)

Communities of Practice are facilitated, collaborative learning experiences tailored to meet the unique needs of educators within schools and districts.

Participants engage with peers in similar roles, explore instructional strategies, and refine practice together, supporting implementation quality through shared language, aligned approaches, and practical application.

Communities of Practice are available for a range of roles and experience levels.

General Session

The General Session connects student voice, educator practice, and leadership purpose. It is where the heart of our work comes to life. Through inspiring student performances and authentic stories from students, educators, and AVID alumni, participants explore what students need most. They learn how intentional instructional choices and systemic practices create the conditions for success for students, families, and communities.

This experience grounds the time together in purpose and reinforces that every decision we make as educators shapes opportunity and impact.

Dedicated Site Team Time

Summer Institute is designed to support everyone, whether you're attending as a full Site Team or joining on your own. During Site Team time, partners participate in the experience that best matches their implementation journey: New sites and districts focus on foundations and goal-setting, experienced sites dive into planning, and individual participants engage in reflection and networking.

This time is intentionally built to support alignment, planning, and coherence across teams.

Why Attend AVID Summer Institute?

Summer Institute offers firsthand experience of AVID's approach to professional learning focused on collaboration, implementation quality, and strategies educators can bring back immediately to their classrooms and schools.

Who Should Attend

- Classroom educators (Elementary, Secondary, AVID Elective/AVID Excel Elective)
- Site coordinators and instructional leaders
- Principals and site administrators
- District and system-level leaders
- Educators new to AVID professional learning

Summer Institute is designed to meet participants where they are, whether attending independently or as part of a team.
