

What Happens When Language Stops Being A Barrier?

AVID Emerge is a professional learning and instructional resource package for educators supporting students developing academic language, whether they are multilingual learners, English learners, or those who benefit from language-rich instruction. It combines strategic routines, flexible tools, and ongoing training to make academic language accessible and engaging. With AVID Emerge, educators unlock student potential and create classrooms where language is a bridge, not a barrier, to academic success.

How It Works:

As a flexible overlay, AVID Emerge complements your existing English language development (ELD) or other instructional programs to bring language-rich, student-centered learning to life. It's English language instruction that meets multilingual learners at every proficiency level and every stage of learning—across PreK–12. When educators are supported, multilingual scholars are empowered.
