

PRODUCT **BULLETIN**

EFFECTIVE DATE	September 16, 2024
SUBJECT	Transition from SKU R1364 to R1478
APPLIES TO	All Dealers

DESCRIPTION

We are approaching the final days of stock availability for XPEL FUSION PLUS PAINT & PPF, SKU R1364 across all global warehouses. As inventory runs out, R1364 will no longer be available for order. Please start using the updated product FUSION PLUS CLASSIC, SKU: R1478.

Rest assured, there has been no change to the formula, application process, or cure time. This update is purely a product naming alignment to reduce confusion.

Please note, although the previous name included "paint and PPF," this has sometimes caused misunderstandings. Customers and consumers have occasionally assumed this was the only product suitable for XPEL PPF. However, you can confidently use LITE, CLASSIC, SATIN (for stealth and satin finishes), and PREMIUM on both PPF and painted surfaces.
