

# PRODUCT BULLETIN

**EFFECTIVE DATE** May 31, 2023

**SUBJECT** New Product | Tools & Accessories | Architectural Film Meters

**APPLIES TO** XPEL VISION Dealers (All Markets)

## DESCRIPTION

XPEL added a comprehensive set of architectural film meters designed to assist XPEL VISION dealers when assessing the glass properties of any architectural film project.

These new products will allow XPEL VISION dealers to comprehensively assess crucial factors such as light transmission, solar heat rejection, UV protection, and energy efficiency in diverse architectural settings. They can also be used to demonstrate the film's attributes to customers and offer the best film solution for the project.

Customers may purchase select new products on [xpel.com](https://xpel.com). These new products are available for purchase on the Dealer Portal:
