

PRODUCT BULLETIN

EFFECTIVE DATE	May 6, 2024
SUBJECT	FUSION PLUS PREMIUM v2
APPLIES TO	All Dealers

DESCRIPTION

Product Overview: XPEL PREMIUM V2 is the latest innovation in surface protection, engineered for enhanced durability and a high-gloss finish. With a significant improvement in gloss retention and reduced odor during application, this premium coating not only elevates the aesthetic appeal of surfaces but also ensures an easy and user-friendly application experience.

Key Features and Benefits:

- Enhanced Durability: Long-lasting protection that keeps surfaces looking newer for longer.
- Superior Gloss Retention: A glossy finish that stays immaculate through time.
- Ease of Application: Less odor and a generous working time for a more comfortable and precise application.
- Unique Sweating Effect: The product's sweating indicates readiness for leveling and buffing, eliminating guesswork.
- Transferable 8-Year Warranty: Confidence in your purchase with a warranty that lasts and requires annual inspections. Full warranty details available [here](#).

Application Advantages:

- Generous Working Time: Allows for extended adjustability and perfecting the application.
- 1 to 3-Minute Flash Window: Optimal time for the product to sweat and be ready for the next step.

Video Tutorial on XPEL DAP:

To ensure our customers achieve the best application results, we will introduce a comprehensive video tutorial on the XPEL Dealer Access Portal (DAP). This visual guide will cover quick tips and tricks on the application of XPEL PREMIUM V2, making the process even more accessible for both novice and experienced users. The tutorial is estimated to be added to the platform by the end of May 2024.

We highly encourage users to view this tutorial to familiarize themselves with the product's properties and master the application techniques for a professional and durable finish.
