Governed Portfolio - Cautious Growth

Factsheet 31/03/2025

Investment Objective

The Portfolio aims to provide some capital growth whilst focusing on capital preservation over the short to medium term. The portfolio is managed with the aim of remaining within a fee cap (comprising the ongoing charge figure of the underlying funds and the portfolio-management fee) of 50 basis points. The portfolio is actively managed and primarily invests in equities and fixed-income assets, with a notable bias towards more-defensive assets. The portfolio primarily invests in passive funds, but it will also have exposure to active funds if the managers believe value can be added within the portfolio's fee constraints. Positions in alternative asset classes may be included for diversification purposes. We set a maximum equity weighting of 30% for this risk profile.

A fund may not be available on all platforms and hence it is not always possible for us to replicate the model portfolios through all platforms. In this case, different funds will be used and weightings may also differ for portfolio construction reasons.

Risk Warnings

Unless stated otherwise, all data and information is presented at 31/03/2025. Past performance is not a guide to future returns. The value of investments may go down as well as up and investors may not get back the amount invested. The portfolio shown has similar investment objectives and strategies as the portfolio recommended to individual clients by their financial adviser; however, may not contain the same securities that are currently underlying the portfolio provided to individual clients. Specific securities mentioned should not be viewed as a recommendation to buy or sell such securities. Due to platform requirements, cash allocations may differ per platform.

There is no guarantee that a diversified portfolio will enhance overall returns or will outperform a non-diversified portfolio. Neither diversification nor asset allocation ensure a profit or guarantee against loss. It is important to note that investments in mutual funds involve risk, including as a result of market and general economic conditions, and will not always be profitable.

Morningstar Equity Style Box*

The Morningstar Style Box is a nine-square grid that illustrates the investment style of a security. Size (large, mid, or small) is displayed along the vertical axis and style is displayed along the horizontal axis. The "value" and "growth" investment styles are common to both stocks and funds. For stocks, the central column of the Style Box represents the "core" style. Few or no funds contain only stocks with extreme value-growth orientations, and both value and growth managers often hold core stocks for diversification or other reasons. Therefore, for funds, the central column represents the "blend" style (a mixture of growth and value stocks or mostly core stocks).

Governed Portfolio - Adventurous Growth

Factsheet 31/03/2025

Investment Objective

The Portfolio aims to provide capital growth over the long term. The portfolio is managed with the aim of remaining within a fee cap (comprising the ongoing charge figure of the underlying funds and the annual management charge) of 50 basis points. The portfolio is actively managed and invests predominantly in equities to a maximum of 100%. The portfolio primarily invests in passive funds, but it will also have exposure to active funds if the managers believe value can be added within the portfolio's fee constraints. Positions in fixed income, property and alternative asset classes may also be included.

A fund may not be available on all platforms and hence it is not always possible for us to replicate the model portfolios through all platforms. In this case, different funds will be used and weightings may also differ for portfolio construction reasons.

Risk Warnings

Unless stated otherwise, all data and information is presented at 31/03/2025. Past performance is not a guide to future returns. The value of investments may go down as well as up and investors may not get back the amount invested. The portfolio shown has similar investment objectives and strategies as the portfolio recommended to individual clients by their financial adviser; however, may not contain the same securities that are currently underlying the portfolio provided to individual clients. Specific securities mentioned should not be viewed as a recommendation to buy or sell such securities. Due to platform requirements, cash allocations may differ per platform.

There is no guarantee that a diversified portfolio will enhance overall returns or will outperform a non-diversified portfolio. Neither diversification nor asset allocation ensure a profit or guarantee against loss. It is important to note that investments in mutual funds involve risk, including as a result of market and general economic conditions, and will not always be profitable.

Morningstar Equity Style Box*

The Morningstar Style Box is a nine-square grid that illustrates the investment style of a security. Size (large, mid, or small) is displayed along the vertical axis and style is displayed along the horizontal axis. The "value" and "growth" investment styles are common to both stocks and funds. For stocks, the central column of the Style Box represents the "core" style. Few or no funds contain only stocks with extreme value-growth orientations, and both value and growth managers often hold core stocks for diversification or other reasons. Therefore, for funds, the central column represents the "blend" style (a mixture of growth and value stocks or mostly core stocks).

Morningstar Investment Management Europe Ltd

The Governed Portfolios are available to Aviva Life Services UK Ltd however managed by Morningstar Investment Management Europe Ltd on a discretionary basis. Morningstar Investment Management Europe Ltd is authorised and regulated by the UK Financial Conduct Authority to provide services to Professional clients and is the entity providing the discretionary management services. The Governed Portfolios are intended for citizens or legal residents of the United Kingdom. These portfolios can only be made available through the use of an Investment Adviser appropriately authorised and regulated by the Financial Conduct Authority.

Governed Portfolio - Moderately Cautious Income

Factsheet 31/03/2025

Investment Objective

The Portfolio aims to provide a sustainable income that can grow over time. The portfolio is managed with the aim of remaining within a fee cap (comprising the ongoing charge figure of the underlying funds and the annual management charge) of 60 basis points. The portfolio also aims to provide capital growth over the medium term. The portfolio is actively managed primarily investing in passive funds within the core asset classes of equity, fixed income and property. The portfolio may also have exposure to active funds if the managers believe value can be added within the fee constraints. Smaller positions in alternative asset classes may be included for diversification purposes. We set a maximum equity weighting of 50% for this risk profile.

Portfolio Details

Minimum Investment	Platform Dependent
